Our expectation is that every team will meet this quota, and then will be eligible for post-season play.

Points are based on what it takes to cover all the home games in Aliso Viejo.

For example: A u8 team has 10 games, 1/2 of those games will be at home = 5 games. There is only one Referee needed on this game so we assign a 1 point value to each home game. We then expect the Referee of that team to attend both the Fall Kick-off meeting and the Mid-Season meeting to further their Referee education and stay on track with the needs of our Region = 2 points.

So the total expectation of Referee Points for a U8 team = 7 points.
