

SAFETY DATA SHEETS

1.Identification	
1.1GHS Product identifier	
Product name	citronellal
1.20ther means of identificat	tion
Product number	-
Other names	Citronellal
1.3Recommended use of the	chemical and restrictions on use
Identified uses	For industry use only. Fragrances
Uses advised against	no data available
1.4Supplier's details	
Compone	Peak Supply Co
Company Address	5664 Cahuenga blvd. North Hollywood CA 91601
Telephone	(818) 308-6227
1.5Emergency phone number	r
Emergency phone number	
Service hours	Monday to Friday, 9am-5pm (Standard time zone: UTC/GMT +8 hours).
2.Hazard identification	
2.1Classification of the subst	ance or mixture
Skin irritation, Category 2	
Skin sensitization, Category	1B
Eye irritation, Category 2	
	ding precautionary statements
2.20115 laber elements, melu	ung precautionary statements

Pictogram(s)		
Signal word	Warning	
Hazard statement(s)	H315 Causes skin irritation	
	H317 May cause an allergic skin reaction	
	H319 Causes serious eye irritation	
Precautionary statement(s)		
Prevention	P264 Wash thoroughly after handling.	
	P280 Wear protective gloves/protective clothing/eye protection/face protection.	
	P261 Avoid breathing dust/fume/gas/mist/vapours/spray.	
	P272 Contaminated work clothing should not be allowed out of the workplace.	
Response	P302+P352 IF ON SKIN: Wash with plenty of water/	
	P321 Specific treatment (see on this label).	
	P332+P313 If skin irritation occurs: Get medical advice/attention.	
	P362+P364 Take off contaminated clothing and wash it before reuse.	
	P333+P313 If skin irritation or rash occurs: Get medical advice/attention.	
	P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes.	
	Remove contact lenses, if present and easy to do. Continue rinsing.	
	P337+P313 If eye irritation persists: Get medical advice/attention.	
Storage	none	
Disposal	P501 Dispose of contents/container to	

2.3Other hazards which do not result in classification

none

3.Composition/information on ingredients

3.1Substances

Chemica	al name	Common names and synonyms	CAS number	EC number	Concentration
citron	ellal	citronellal	106-23-0	none	100%

4.First-aid measures

4.1Description of necessary first-aid measures

General advice

Add: 5664 Cahuenga blvd. North Hollywood CA 91601 Tel: (818) 308-6227

Consult a physician. Show this safety data sheet to the doctor in attendance.

If inhaled

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

In case of skin contact

Wash off with soap and plenty of water. Consult a physician.

In case of eye contact

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

If swallowed

Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

4.2Most important symptoms/effects, acute and delayed

no data available

4.3Indication of immediate medical attention and special treatment needed, if necessary

/SRP:/ Immediate first aid: Ensure that adequate decontamination has been carried out. If patient is not breathing, start artificial respiration, preferably with a demand-valve resuscitator, bag-valve-mask device, or pocket mask, as trained. Perform CPR as necessary. Immediately flush contaminated eyes with gently flowing water. Do not induce vomiting. If vomiting occurs, lean patient forward or place on left side (head-down position, if possible) to maintain an open airway and prevent aspiration. Keep patient quiet and maintain normal body temperature. Obtain medical attention. /Aldehydes and Related Compounds/

5.Fire-fighting measures

5.1Extinguishing media

Suitable extinguishing media

Wear self-contained breathing apparatus for firefighting if necessary. Use water spray to cool unopened containers.

5.2Specific hazards arising from the chemical

no data available

5.3Special protective actions for fire-fighters

Wear self-contained breathing apparatus for firefighting if necessary.

6.Accidental release measures

6.1Personal precautions, protective equipment and emergency procedures

Add: 5664 Cahuenga blvd. North Hollywood CA 91601 Tel: (818) 308-6227

Use personal protective equipment. Avoid dust formation. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. Avoid breathing dust. For personal protection see section 8.

6.2Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

6.3 Methods and materials for containment and cleaning up

ACCIDENTAL RELEASE MEASURES: Personal precautions, protective equipment and emergency procedures Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas. For personal protection see section Environmental precautions Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided. Methods and materials for containment and cleaning up. Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations. Keep in suitable, closed containers for disposal.

7.Handling and storage

7.1Precautions for safe handling

Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Avoid exposure - obtain special instructions before use.Provide appropriate exhaust ventilation at places where dust is formed. For precautions see section 2.2.

7.2Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Light sensitive. Storage class (TRGS 510): Combustible liquids

8. Exposure controls/personal protection

8.1Control parameters

Occupational Exposure limit values

no data available

Biological limit values

no data available

8.2Appropriate engineering controls

Add: 5664 Cahuenga blvd. North Hollywood CA 91601 Tel: (818) 308-6227

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

8.3Individual protection measures, such as personal protective equipment (PPE)

Eye/face protection

Safety glasses with side-shields conforming to EN166. Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection

Wear impervious clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique(without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.

Respiratory protection

Wear dust mask when handling large quantities.

Thermal hazards

no data available

9. Physical and chemical properties

Physical state	clear light yellow liquid
Colour	Needles or orthorhombic crystals
Odour	Intense lemon-citronella-rose odor
Melting point/ freezing point	147°C
Boiling point or initial boiling point and boiling	207°C(lit.)
range	
Flammability	no data available
Lower and upper explosion limit / flammability	no data available
limit	
Flash point	86°C
Auto-ignition temperature	no data available
Decomposition temperature	no data available
pH	no data available
Kinematic viscosity	no data available
Solubility	In water, 70.2 mg/L at 25°C (est)
Partition coefficient n-octanol/water (log value)	$\log \text{Kow} = 3.53 \text{ (est)}$
Vapour pressure	0.215mmHg at 25°C
Density and/or relative density	0.857g/mLat 25°C(lit.)

Relative vapour density Particle characteristics no data available no data available

10.Stability and reactivity

10.1Reactivity

no data available

10.2Chemical stability

Stable under recommended storage conditions.

10.3Possibility of hazardous reactions

no data available

10.4Conditions to avoid

no data available

10.5Incompatible materials

Strong oxidizing agents, Strong acids, Strong bases

10.6Hazardous decomposition products

Carbon oxides

11.Toxicological information

Acute toxicity

- Oral: LD50 Rats oral > 5 g/kg
- Inhalation: no data available
- Dermal: no data available

Skin corrosion/irritation

no data available

Serious eye damage/irritation

no data available

Respiratory or skin sensitization

no data available

Germ cell mutagenicity

no data available

Carcinogenicity

no data available

Reproductive toxicity

no data available

STOT-single exposure

no data available

STOT-repeated exposure

no data available

Aspiration hazard

no data available

12.Ecological information

12.1Toxicity

- Toxicity to fish: no data available
- Toxicity to daphnia and other aquatic invertebrates: no data available
- Toxicity to algae: no data available
- Toxicity to microorganisms: no data available

12.2Persistence and degradability

AEROBIC: Citronellal, present at 26 mg/L in activated sewage sludge, achieved 83% biodegradation in 29 days using a Modified Sturm test measuring carbon dioxide evolution and is considered readily biodegradable(1).

12.3Bioaccumulative potential

An estimated BCF of 160 was calculated in fish for citronellal(SRC), using a log Kow of 3.83(1) and a regression-derived equation(2). According to a classification scheme(3), this BCF suggests the potential for bioconcentration in aquatic organisms is high(SRC).

12.4Mobility in soil

The Koc of citronellal is estimated as 650(SRC), using a log Kow of 3.83(1) and a regression-derived equation(2). According to a classification scheme(3), this estimated Koc value suggests that citronellal is expected to have low mobility in soil(SRC).

12.50ther adverse effects

no data available

13.Disposal considerations

13.1Disposal methods

Add: 5664 Cahuenga blvd. North Hollywood CA 91601 Tel: (818) 308-6227

Product

The material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems.

Contaminated packaging

Containers can be triply rinsed (or equivalent) and offered for recycling or reconditioning. Alternatively, the packaging can be punctured to make it unusable for other purposes and then be disposed of in a sanitary landfill. Controlled incineration with flue gas scrubbing is possible for combustible packaging materials.

14.Transport	information

14.1UN Number

ADR/RID: UN3082 IMDG: UN3082 IATA: UN3082

14.2UN Proper Shipping Name

ADR/RID: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. IMDG: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. IATA: ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S.

14.3Transport hazard class(es)

	ADR/RID: 9	IMDG: 9	IATA: 9	
14.4Packing group, if applicable				
	ADR/RID: III	IMDG: III	IATA: III	
14.5Environmental hazards				
	ADR/RID: no	IMDG: no	IATA: no	

14.6Special precautions for user

no data available

14.7Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

no data available

15.Regulatory information

15.1Safety, health and environmental regulations specific for the product in question

Chemical name	Common names and synonyms	CAS number	EC number
citronellal	citronellal	106-23-0	none
European Inventory of Existing Commercial Chemical Substances (EINECS)			Listed.
