Frequently Asked Questions

How many digital files do I get?

For most standard sessions digital images are grouped into collections of 7, 15, & 35. There is also an option to purchase your entire proofing gallery for \$1500.

How many poses can I get with my print package?

Each package will specify how many poses. A la Carte items are 1 pose per print.

Can I make substitutions in a package?

Yes! The package options are designed to make ordering easier. You can easily swap an 8x10 for a 5x7. We will simply add or subtract the difference.

When do I pay for my order?

As each order is custom and each image refined prior to printing, all orders must be paid when ordering.

How long do you keep my images?

Client images are kept on three separate hard drives for one year. After the first year they are archived onto one external hard drive. As hard drives can fail, I can not guarantee the security of your images.

Can I make my own copies of my images?

The answer is no. Only by purchasing high resolution digital files with printing rights can you make your own prints and copies.

All Senior clients receive one image license for use in their schools yearbook or other school related needs with any order over \$350. The images are protected by copyright laws and may not be reproduced without permission.
