

Common Sense Care:

Keep from freezing and temps above 115°. Keep out of reach of children and pets. Do not allow contact with open cuts, sores or eyes. Rinse eyes with plenty of water for several minutes in case of accidental contact. Do not ingest. Clean with disinfectant after contact with food surfaces. Wash hands thoroughly after handling. **Note:** Do not expose **StallBlaster** to common household cleaning products (i.e. bleach, disinfectants) as these will harm the beneficial microbes.

Stops Dangerous Ammonia Odor in its Tracks

StallBlaster provides a highly effective, safe and affordable solution to drastically reducing or removing urine and manure odors.

- **In the barn**
- **Outdoor stalls**
- **Horse trailer**
- **Dog kennel**
- **Livestock pens**
- **Litter box**
- **Chicken coop**
- **Sweaty saddle pads, workout clothes/shoes**

Less Odor = Less Flies

Ingredients:

Water, Naturally Occurring Microbes and Beneficial Probiotics, Readily Biodegradable Dispersing Agent, Natural Fragrance

Manufactured in the U.S. for

**NonToxic • Eco-Friendly
Safe for People, Pets & Livestock**

**Uses naturally occurring microbes and beneficial probiotics that biodegrade and digest odor molecules by consuming the organics such as urine and manure.
Begins working immediately.**

**16 fluid ounces (473 mL)
Makes 10 gallons
Highly concentrated 80:1 Ratio**

Instructions: SHAKE BEFORE USE.

Dilute 1.6 oz (3.2 Tbsp) per gallon of water. For initial use, saturate urine soaked area with diluted solution. Subsequent treatments to odor area can be made with spray bottle or garden sprayer. In 32 oz sprayer use .4 oz (2.4 tsp) of **StallBlaster**. Protect the container of concentrate and diluted mixture from direct sunlight. Microbes are active above freezing to 115°. For best results use every 3-7 days. Use diluted mixture within 7 days. Until diluted with water, shelf life is guaranteed for 2 years.
