PRESS RELEASE

European Automobile Clubs (EAC) welcomes new member

Brussels, 2014-11-07

In its autumn session, the General Meeting of the European Automobile Clubs (EAC) voted to approve the membership of the Slovak Republic Automobile Club (*Autoklub Slovenskej republiky* – AKSR). “We are very pleased to welcome the AKSR to our ranks as a new member,” commented EAC President Bernd Opolka. “The AKSR membership will give an even broader basis to our calls for harmonising EU legislation to promote the mobility and safety of all European road users. This new partnership does not just support our work in Brussels, but also underlines the value of our efforts.”

From 1 January 2015, with the new membership of the Slovak Republic Automobile Club, the EAC now represents the interests of six automobile clubs from Germany, Austria and the Slovak Republic.
