Dear

Congratulations on your new job. Now that you are in Government I would like to remind you of the promises you have made to us EU citizens during the referendum campaign.

No change and treated no less favourably can only be delivered via a bilateral EU/UK agreement. I am urging you to work with the EU to ring-fence the already agreed citizens' rights agreement.

The previous Government introduced the Settlement Scheme. Unfortunately, the new status is not automatic but only via application. To make it automatic it must be changed to a registration system with our rights secured in law now.

Now that you are in control I am looking forward to you delivering on your referendum commitments.

Yours sincerely,

June 1st, 2016:

There will be **no change for EU citizens** already lawfully resident in the UK.

These EU citizens will **automatically** be granted indefinite leave to remain in the UK and will be **treated no less favourably** than they are at present.
