

SAFETY - PERFORMANCE - ECONOMY

Prolong® Transmission Treatment is the ultimate lubricant enhancer that cleans and protects all the moving parts of your transmission with a polarized layer of oil molecules that resist extreme pressure and excessive temperatures. This product is not to be confused with ordinary “additives”. Contains Prolong® AFMT™. Prolong® Transmission Treatment reduces friction, heat, wear, and maximizes the life and performance of your automatic or manual transmission.

Compatible with all types of transmission fluids. Does not contain plastic particles, PTFE resins (Teflon), graphite, molybdenum disulfide, or any other solids which may cause harmful buildup.

AUTOMATIC TRANSMISSIONS BENEFITS:

- Frees Sticky Valve Bodies
- Reduces Hard or Late Shifts
- Reduces Operating Temperatures
- Reduces Varnish Buildup
- Compatible with All Types of Transmission Fluids

MANUAL TRANSMISSIONS BENEFITS:

- Quiets Noisy Gears and Bearings
- Makes Shifting Easier and Faster
- Reduces Friction, Heat, and Wear
- Compatible with Standard Gear Oils

APPLICATIONS:

- Automatic Transmissions
- Manual Transmissions
- Automobiles
- Trucks
- Buses
- Tractors
- Marine
- Motorcycles
- Off Road Vehicles
- Recreational Vehicles

DIRECTIONS:

- Add Prolong® Transmission Treatment on your next transmission service, as follows:
- Trucks, Buses & Industrial Equipment: 2-3 oz per quart.
- For maximum results with larger volume transmissions, use Prolong® Transmission Treatment at 10% by volume.

PRODUCT PACKAGING:

Part Number	Size	Case Qty
15000	8 oz (236 mL)	12
15220	1 Gallon (128 oz) 3.78 L	2
15225	5 Gallon (640 oz) 18.9 L	1
15020	1 Drum (55 Gallons) 208 L	1
