Michelle, can you please get Wendy an engagement letter. I know we discussed running it through KF but with all these corporate issues I think we should keep a clear accounting of fees resulting from Mike's actions. The divorce might not be all that difficult. Do you agree? You and Wendy can just execute and pay the retainer while she is there this morning. I told her I would not be in attendance as she doesn't need both of at the depo.

I believe that Mike would know if Jody had been reimbursed for expenses that he paid out of the family account. The deposits would have gone into somewhere else other than the family account that he paid them out of.

I think the two main issues are

1. The fact that when he diluted the stock and "accidentally" miscalculated to give himself 54%, why did he not bring it to my attention as a director and why was he not willing to correct it?
 2. When I had to cancel my meeting with him to get my shares back because of the flooding occurring in Houston, why did he not give me reasonable advance notice to reschedule and clearly explain to me, as a director, that his intentions were to have a shareholder meeting and take my stock.
- I did not have a reasonable opportunity to get my stock back.
He clearly had a predetermined motive!

Hope this helps!
Good luck!

In the car. Can you think of questions for Mike? His deposition is this morning.
