Score = $\frac{\text{Points}}{\text{Max Potential}} + 30$

Participation Factor - 30
(Favors Boats that sail more races)

X - Doesn't Count -
Regatta not 4 nautical miles
or
Race didn't have 3 boats competing.

Points - 2 for every race sailed
and 1 for every boat beaten.

Max Potential - If won every race sailed.

✓ Need to have sailed in at least 5 races that could be scored to qualify for High Point. *

/ = Discard - One discard available if a boat competed in 9 or more races.

* - CIBYRA PHRF Rules that we have always followed say 5 Regattas, but our past scorer, Paul Rohrkeemper, always used 5 races. 5 Boats qualified this year under that parameter.
