

1st school board meeting I was allowed to attend, one year after the ban was initiated... but ONLY after my oldest had graduated and we moved my youngest to another district:

The reported incident did not occur. During the open house, the student waited in the outdoor line to receive his schedule from Ms. Sandoval. I entered the main office, where I stood behind Peitilla engaging in a brief discussion with another parent about drop-off procedures before addressing the receptionist to confirm Justin's address on file. No line was present inside the office, no queue was bypassed.

School board complaint attached

Sept 2017 Meeting: <https://youtu.be/D7vVlfaVQlc>

#3 PCM

Email to Lineberry, Dorathy and Jennifer Hull attached. Asking Lineberry to stop copying the minor child on any further communication, that it is unprofessional, unethical and likely illegal.

#4 PCM

Email attached. Asking Dorathy to send information regarding the overnight event Justin was wanting to attend.

#5 PCM

Attached. Email from Lineberry to Prosecutor. Page 2, last 3 paragraphs.

Assuming he didn't like that I filed a direct complaint with the SBE, but in this email, he reports that the IT dept blocked my email address, which is likely why my emails to school board members went unanswered.

#6 PCM

"In January, June and July...you repeatedly demanded copies of cum files"

January is the same email as #3, #6 and #7 of this PCM

June and July emails attached. I was trying to get attendance records for our custody dispute. Firefighters were being housed at MUSD and MUSD staff didn't have access to send the file. Which is why there was more than one email requesting the files.

#7 PCM

Same as #3
