EXHIBITORS

2operate is an innovative solution provider of OSS and Network Assurance tools. Using AI, automated processes, and state-of-the-art interfaces our solutions are specially designed to supplement and leverage existing OSS tools, paving the way for much faster incident handling as well as greater efficiency and simplicity in network operations. With our cutting-edge ECO-RAN solution (energy consumption optimization in RAN) we have been busy rethinking how best to enable mobile operators to realize quick substantial energy efficiency gains in RAN and ensure greener company profiles.

Dencrypt A/S provides secure mobile voice & video calls and secure instant messaging on iOS or Android smartphones for users in defence, government, police, and corporate organizations. The innovative Dencrypt Communication solution works on standard IP data networks, including mobile phone networks, Wi-Fi, satellite, and lower bandwidth channels. Security is achieved by applying end-to-end encryption between devices using Dencrypt's Dynamic Encryption principle. This provides the optimal level of security to the user, preventing eavesdropping and unauthorised access to data. Dencrypt's solution is Common Criteria certified and has accreditation from NATO and the Danish Defence.

MiWire's long range, plug and play, mobile broadband solution uses its auto rotating directional antenna to automatically align itself to the best performing network mast, enabling data transmission performance to be optimised. Our unique, patented solution doubles the existing 4G/5G network range, offering fibre-like wireless connectivity where there is no fibre. MiWire RouDem provides great, stable data coverage for everyone, regardless of their location and irrespective whether they need to stream content or gain rapid access to vital data. The maritime version, "SeaWire" offers high-speed broadband connectivity at sea with a certified rugged design fit for the tough environment. Our Network Management System controls and surveys all devices and helps our support provide world class service.
