

ACOPORE®

Paper Surgical Tape

The Complete Range

Paper Surgical Tapes

Re-engineered for just the right adhesion

A hypoallergenic, breathable paper tape that is gentle to the skin yet adheres well and leaves minimal adhesive residue upon removal. AcoPore tape is excellent for repeated applications on sensitive skin, fragile skin and elderly patients. It is available in a dispenser pack for easy tear and convenience. Latex-Free.

APPLICATIONS FOR USE

- Taping fragile, at-risk skin
- Securing ostomy pouches
- Securing lightweight tubing
- Where frequent re-taping is needed
- Securing small to medium dressings, tubes, lines and I.V. catheters

FEATURES AND BENEFITS

- Gentle adhesion to skin.
- Holds well on damp skin.
- Consistently low unwind tension.
- Highly conformable due to exceptional flexibility.
- Highly breathable to prevent skin maceration.

Latexfree

Sensitive Skin Paper Surgical Tape

Unique wave pattern adhesive Revolutionary Gentle Adhesion

Adhesive is present only on every alternate wave. This unique wave pattern provides plenty of surface area for the tape to stick, yet the smaller amount of adhesive is gentler to the skin when the tape comes off. The gaps in the adhesive also allow for breathability. Latex-Free.

AcoPore® Paper Surgical Tape For Sensitive Skin			
Product Code	Size	Colour	Packing

Single Patient Use Plastic Surgical Tape

Infection Control Pack

The purpose is to reduce cross-contamination and ensuring infection control. Each roll is only 1.5 yards long and for single patient use only. Latex-Free.

A latex-free, hypoallergenic, transparent and perforated plastic tape that offers strong adhesion. ClearaPore tape is easy to tear into very thin strips, and is easy to use even with gloves.

APPLICATIONS FOR USE

- Securing tubing and devices. (e.g., catheters, I.V. tubing)
- Anchoring bulky dressings.
- When tape width must be customized.

FEATURES AND BENEFITS

- Enhanced perforated pattern provides custom tearability and transmission of moisture and air through the tape backing.
- A low profile backing material is more comfortable and is less prone to snagging.
- Conforms to skin and flexes with the body for comfort.
- Easy to write on and easy clean.
- Low unwind tension for ease of removal from the roll.
- Hypoallergenic.

Latexfree

AcoPore® Single Patient Use Plastic Surgical Tape

Product Code	Size	Colour	Packing
55-1-100	2.5cm x 1.5yard / 1.37m	white	100 pcs/box; 5 boxes/ctn

Excellent Visibility

Exceptionally clear backing material allows for easier viewing of the wound site, monitoring of skin condition and healing progress without removing the tape.
