

SMART OPENNESS

– 3UAS's joint policy, promises and principles for an open operational culture

WE SUPPORT OPEN AND EFFECTIVE COLLABORATION

1. We contribute to open discussion and societal development by creating and sharing new knowledge and expertise
2. We reinforce the principles of responsible innovation and open science in regional, national and international networks
3. The data, methods and results we produce are reusable and useful to other users

WE UTILIZE OPEN KNOWLEDGE AND INFRASTRUCTURES

4. We benefit from open data, methods and results in our RDI, educational and business operations
5. Data management infrastructure, tools and services are available to our personnel
6. We use existing services and develop joint infrastructures in RDI, educational and business operations

WE ADHERE TO LEGAL AND ETHICAL PRINCIPLES

7. We provide guidance to our personnel in legal and ethical matters
8. We follow the guidelines of our organization, the guidelines provided by the Finnish Advisory Board on Research Integrity, the statutes set out in Finnish legislation as well as the terms and conditions of contracts regarding the sharing and utilization of data
9. We protect and secure the confidential and sensitive data that we produce

WE PROMOTE AN OPEN ACTION CULTURE

10. Openness is understood as a comprehensive approach. We promote an open action culture and request feedback on our progress
