

Facials

Express Facial \$50

Our Skin Therapist will customize this 30-minute treatment specifically for you and your skin concerns. This facial includes cleansing, exfoliating, mask and a neck and shoulder massage.

Customized Facial Treatment \$90

This customized treatment uses a powerhouse of ingredients specifically designed to target discoloration, fine lines and wrinkles, pore congestion and rough texture. Combined with layered exfoliation and protective antioxidants, this treatment will leave your skin looking brighter, radiant, and refreshed. This facial includes a neck, shoulder, arm and hand massage.

Oxygen Facial \$100

The oxygen facial will instantly brighten the appearance of your skin after a single treatment which is why it is a favorite of a-list celebrities before red carpet events. The oxygen facial uses a stream of pressurized oxygen to help retain the skin's moisture and hydration. Under the stream of pressurized oxygen, the serums are absorbed in the skin's deeper layers, where its beneficial effects begin to rejuvenate the skin.

Gel Peel Facial \$130

Skincare peels are an integral part of achieving optimal skin health. This tailored treatment is specific in treating various skin conditions. Skincare peels are designed to eliminate dead skin cells, refine pores, and revitalize congested, dull skin. By effectively exfoliating the skin's surface, this treatment will help reduce the appearance of acne scars, fine lines and wrinkles, improve skin tone, and enhance collagen production. Your skin will look brighter and feel tighter, especially if you receive multiple treatments.

Microneedling \$250 (Series of 3 - \$675)

Microneedling is an effective treatment for improving the appearance of fine lines, moderate wrinkles, acne and traumatic scarring and stretch marks. The creation of tiny micro-channels allows for better product absorption, enhancing the effects of topical gels, serums and creams in the deeper layers of the skin. At tranquility spa salon we use the csa approved micro-pen by eclipse.
