GAME INFORMATION

1. MULTIPLIERS that landed in the Base Game are guaranteed to upgrade by 1 stage higher if there are wins in the same round.

Rise of Olympus 1000 is a 6-column, 5-row cascading grid game. Symbols pay anywhere on the screen! 8+ of the same symbols anywhere on the grid awards a scattered win. Winning combinations and payouts are made according to the paytable. When winning with multiple symbols, all wins are added to total win. Only the highest win is paid per winning symbol combination.

MULTIPLIERS

2. In FREE SPINS, landing MULTIPLIERS are guaranteed to upgrade by 1 stage higher if there are wins in the same round. The MULTIPLIERS are not carried over to the next round of FREE SPINS if there are no wins in the same round. The total sum of MULTIPLIERS attainable per round with GO Ultra active is X3004.

There are 15 stages of MULTIPLIERS which are X2, X3, X4, X5, X7, X8, X10, X12, X15, X20, X25, X50, X100, X500, and X1000 of total bet. MULTIPLIERS multiply the total win at the end of the round in the Base Game and end of each spin in FREE SPINS. If multiple MULTIPLIERS exists, the sum of all MULTIPLIERS in the grid will be the final value to be multiplied to the win. The TUMBLE WIN container updates when the base payout is ready to be multiplied to the final MULTIPLIER value. The total sum of MULTIPLIERS attainable per round is X3013.

Landing MULTIPLIERS

While there's no MULTIPLIER in the grid, MULTIPLIERS can land anytime. When MULTIPLIERS land in the grid and the round cascades, there's a chance to upgrade it by 1 stage higher.

Upgrade MULTIPLIERS

When a MULTIPLIER is upgraded for the first time, it increases by 1 stage higher. Final stage

MULTIPLIERS (X1000) that have landed can no longer be upgraded. When MULTIPLIERS that have already been upgraded once exist in the grid and the round cascades, there's a chance to trigger SUPER UPGRADE.

SUPER UPGRADE

SUPER UPGRADE increases the MULTIPLIER value randomly from 1 stage higher up to the final stage (X1000). While the round cascades, SUPER UPGRADE can trigger multiple times to MULTIPLIERS that have been upgraded at least once. Final stage MULTIPLIERS (X1000) can no longer be upgraded.

FREE SPINS

SCATTERS can land anytime. 3 or more SCATTERS in the base game trigger 12 FREE SPINS. Re-trigger by landing 3 or more SCATTERS in FREE SPINS to get 3 more FREE SPINS. MULTIPLIERS are cumulative in FREE SPINS. Any MULTIPLIERS that are used in a win are carried over until the last round of FREE SPINS. MULTIPLIERS that have landed or upgraded but did not form any win with any symbols are not carried over to the next round of FREE SPINS. When MULTIPLIERS are carried over to the next round of FREE SPINS, it is added in the MULTIPLIER container in the screen. When a round in FREE SPINS is evaluated, all the wins from symbols are added in total and then the sum of the value of all MULTIPLIERS in the grid are added to the current value in the MULTIPLIER container in the screen. The sum of the value in the MULTIPLIER container plus the sum of the value of all MULTIPLIERS in the grid are multiplied by the total wins from all the symbols in the current round to get the final payout for the current round. The FREE SPINS is capped at 36. The total sum of MULTIPLIERS attainable per round is X3013 in the normal FREE SPINS.
