

Decorative & Specialty Glass Collection

THERMA TRU®
DOORS

Welcome home the beauty of glass.

Home begins at the door.

Choose a Therma-Tru® door system with glass for a beautiful, durable entrance that showcases your high standards for style, quality and craftsmanship. Our wide array of glass designs – from simple to intricate – features selections to complement any home.

Year after year, Therma-Tru is the brand of exterior doors most preferred by building professionals.* With our glass, you get the quality and reliability that can only come from Therma-Tru.

Entryways come to life with Therma-Tru glass.

- Numerous glass textures, shapes, colors and coming options complement any Therma-Tru door, and provide flexibility to match your personal style.
- We research our glass designs to ensure they are highly rated in consumer preference.
- We have decades of experience and technical know-how in creating quality glass designs that deliver optimal performance.
- Therma-Tru decorative glass is handcrafted and built with all-glass bevels.
- Backed by a lifetime limited warranty when installed in a fiberglass door system to ensure peace of mind.
- All interior and exterior glass panels, including Low-E and clear glass, are laminated or tempered for added safety.

*Brand Use Study, 2018 *Builder* magazine.

Note: See your Therma-Tru seller or visit thermatru.com for details on limited warranties and exclusions.

Classic-Craft® Premium Entryway Glass

Thanks to 12 exclusive decorative glass families and multiple sidelite and transom configurations, you'll find the ideal style to enhance any home when you select a Classic-Craft premium entryway. Close attention to detail produces truly distinctive designs that showcase and bring your entryway to life.

Beautiful in every way.

- Classic-Craft glass is more than 10 percent wider,* welcoming more light into the home and creating a distinctive entryway.
- Fiberglass lite frames are made with the same material as the door to blend seamlessly with the rest of the entryway when stained or painted.
- All Classic-Craft clear glass options are Low-E, providing long-term energy efficiency.
- Most decorative, privacy and textured glass options feature triple-pane construction that helps increase energy efficiency.
- Any Therma-Tru glass added to a Classic-Craft entryway is covered by the same outstanding lifetime limited warranty.
- All Classic-Craft sidelites feature EnLiten™ flush-glazed designs. The EnLiten flush-glazed process integrates the glass into the door itself during the manufacturing process, eliminating the need for a separate lite frame and providing a high-performance weather seal.

More than 10%
wider glass*

Fiber-Classic®, Smooth-Star®, Profiles™, Traditions, Pulse® Doorglass

Therma-Tru® Fiber-Classic, Smooth-Star, Profiles, Traditions and Pulse doors offer a variety of decorative glass options designed to meet any taste. This selection is inspired by various home and architectural styles, from Victorian to Contemporary. And whether you need greater energy efficiency or privacy, there's an option to suit you.

Great style for any home.

- 15 decorative glass designs offer a look that matches any home and homeowner's style.
- Invite light into the home for a more brilliant interior with EnLiten™ flush-glazed designs featuring 25"-27"-wide glass, or 22"-wide glass in a Lip-lite frame.
- Low-E glass is available for internal blinds, divided lites and clear glass, providing exceptional energy efficiency.
- A wide variety of glass that meets ENERGY STAR® requirements is available.

Triple-Pane Construction

All triple-pane decorative, privacy and textured glass panels are enclosed between tempered glass, offering superior quality and thermal performance.

Note: See your Therma-Tru seller or visit thermatru.com for details on ENERGY STAR qualified products.

Internal Blinds

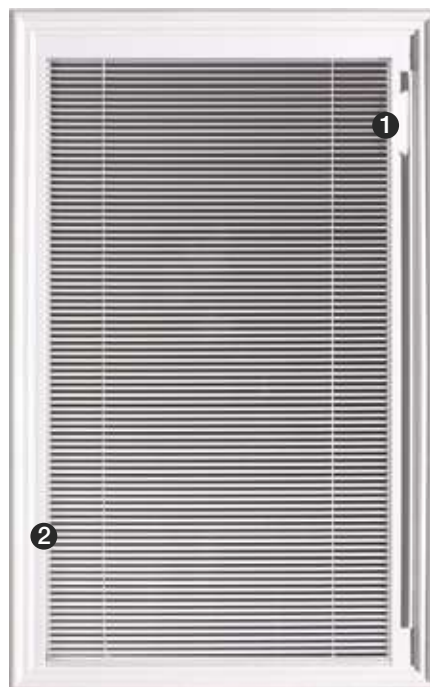

Internal blinds provide the privacy and convenience of a cordless blind enclosed between glass. Control the desired level of light and privacy with a single handle that opens, closes and tilts the blinds.

- Protected between two panes of tempered glass for enhanced safety and performance.
- With no dangling cords, this is a kid- and pet-friendly choice.
- Blinds remain dust free, and glass is easier to clean than traditional blinds.
- Privacy bars eliminate visibility into or out of the home, as well as reduce sun glare.
- Choose Low-E glass for exceptional energy efficiency, or standard clear glass.
- **NEW** EnLiten™ flush-glazed designs and Impact-rated options available.

Impact-Rated Glass

Therma-Tru's Impact-rated glass meets coastal region codes and regulations,* offering excellent performance in extreme weather conditions while providing added protection.

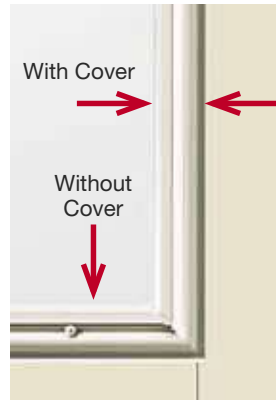

- Used for products in coastal applications, Therma-Tru measures the resistance of the glass to flying debris by firing a 2" x 4" wood stud at a speed of 34 mph to help prevent damage inside the home from severe weather.
- Available in 14 decorative glass options, 6 privacy and textured designs, as well as internal blinds and clear glass.
- Special laminated glass construction helps protect the interior of the home.
- Tested to meet code requirements in coastal areas, including parts of Florida, Texas, and North and South Carolina.*
- Some glass and door configurations are available for use in High Velocity Hurricane Zone (HVHZ) and Wind-Borne Debris Regions (WBDR).
- Designed to withstand wind forces up to 175 mph (DP-55) for high-wind and coastal applications when paired with an approved Therma-Tru HVHZ Impact-rated door. Able to withstand wind forces up to 167 mph (DP-50) in a Therma-Tru non-HVHZ Impact-rated door.

EnLiten™ Flush-Glazed Designs

For Classic-Craft®, Fiber-Classic® & Smooth-Star® Doors & Sidelites

Simplified beauty. Resilient designs. With clean lines and seamless construction, EnLiten flush-glazed designs are perfect for today's homes. Built for long-term performance, these doors and sidelites feature the sleek looks homeowners want and the stylish around-the-home solutions they need.

Front Entry

See the difference.

EnLiten flush-glazed designs provide a simple profile with no added embellishments around the glass.

Flush-Glazed Glass

Lip-Lite Frame

Maximum views.

Create an airy, open feeling in the home with larger daylight openings. EnLiten™ flush-glazed designs offer up to a 16% increase in visible glass area than conventional lite frames.

Flush-Glazed Glass

Lip-Lite Frame

*Comparison of U-factor values of a flush-glazed full-lite door and a Lip-lite full-lite door, both with Low-E glass.

**Must be installed as part of a Thermo-Tru door system in compliance with a Thermo-Tru product approval. Impact-rated products not available.

Utility Door

Patio Doors

Front Entry

Durable by design.

Double- or triple-pane glass is built directly into the door with a high-performance dual adhesive weather seal. This delivers a clean seamless look with no lite frame or screw plugs, and reduces the potential for air and water infiltration, among other benefits.

Superior Sound Dampening

Doors with flush-glazed glass do a better job of dampening outside noise compared to a Lip-lite alternative.

11% More Energy Efficient

The Low-E glass used in flush-glazed doors delivers a clear view and is 11% more energy efficient than 1/2" Low-E glass in a Lip-lite frame.*

Withstands Winds Up to 167 mph

Door systems with flush-glazed glass are designed and tested to withstand wind forces up to 167 mph (DP-50).** (ASTM-E330)

Warranty riders for peace of mind.

EnLiten™ Flush-Glazed Rider for Construction & Installation

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door or sidelite.

EnLiten™ Flush-Glazed Rider for Homeowners

Provides protection in case of glass-related failures due to manufacturer defect. Therma-Tru will furnish \$300 toward installation and replace the flush-glazed fiberglass door or sidelite.

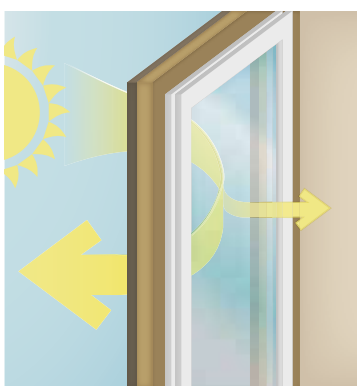

Energy Efficiency

In any region or climate, energy efficiency is key. More than 80 percent of Therma-Tru® door and glass options are ENERGY STAR® qualified and National Fenestration Rating Council (NFRC) certified, helping save money on energy costs.

- Most Therma-Tru decorative glass features triple-pane construction, creating an exceptional thermal barrier.
- Factory-coated Low-E glass comes standard for Classic-Craft® and Pulse® Ari. Low-E glass is also available as an option for clear glass in all other door families to deliver exceptional energy efficiency.

In cold weather, Low-E glass can help reduce the loss of heat by reflecting the heat back inside the home.

In warm weather, Low-E glass reflects the sun's rays off of the glass, helping to keep the interior of the home cool.

Quality Testing

Multiple rigorous tests help ensure that our glass meets the toughest quality and performance expectations:

Our Slam Test requires a glass-fitted door to be slammed repeatedly, confirming the durability and performance of the glass and door.

Exposing our glass to weather-like conditions for our Frost Point Test helps verify that moisture and condensation will not get trapped inside.

Lifetime Limited Warranty

We place a lot of emphasis on achieving the highest level of customer satisfaction. That's why Therma-Tru fiberglass door systems carry a lifetime limited warranty. Should any issues arise during or after installation, we'll address them in a professional, timely manner.

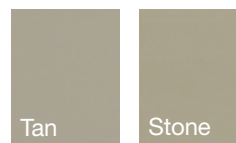

Special Quote Program

Don't sacrifice the look you want. In addition to thousands of standard glass choices, we offer additional glass options through our Special Quote Program to help you find the right look for virtually any home.

Special Quote SDL Pattern Example

Special Quote
GBG Color Options

Divided Lites

Match various window patterns and home styles with additional grid patterns and color options. Impact-rated options also available.

Privacy & Textured Glass

Achieve the desired look and level of privacy with additional options, including hammered glass doorlites shown above.

Texas Star with Standard Brushed Nickel Caming

Texas Star with Special Quote Black Nickel Caming

Caming Colors

Pair black nickel, brushed nickel or brass caming with any decorative glass design to complement home hardware and fixtures.
