

WOODCRAFT

Knotty Alder and Mahogany Entry Doors

GLASS★CRAFT®
DOOR COMPANY

HOW TO CREATE YOUR PERFECT DOOR

Make it your own special door

WoodCraft mahogany and knotty alder entry doors offer unique and premium products at an affordable price. A harmony of design, craftsmanship, durability and affordability, WoodCraft hardwood doors provide an excellent choice for that perfect entry door. Follow these steps to create a customized door just for you.

5 Steps to creating your perfect entry door:

1. Choose your door profile and wood specie. Mahogany or Knotty Alder? A solid door with a speakeasy or a door with lots of glass? A single door, or a double door with a transom? See pages 4-9.

2. Based upon the door profile, choose your door type. Portobello Mahogany...DoorCraft Mahogany...Estancia Knotty Alder? Three different door series offer unique advantages and benefits. See pages 4-9.

3. Choose your finish color. Three finish types are offered, each in several colors. Traditional, Antique, and Distressed finishes will offer the perfect look for your home, and extend the life of your door. See pages 10-13.

4. Add options. Add rustic clavos (decorative door nails) and iron door straps to complete your unique look. See pages 14-16.

5. Select your hardware. Finish your door with solid cast-brass door hardware in single or multi-point options. See pages 21-23.

40 Years of Beautiful Doors

Founded in 1977, GlassCraft Door Company has focused on quality and value for 40 years. Our company has grown into the premier manufacturer of premium doors and entryways in the USA.

Unique door products are what we are all about. Years of experience and research have resulted in 18 patents and hundreds of unique products, which allow us to offer a broad selection of value-driven products.

From our 180,000 square foot manufacturing facility in Houston, Texas, our teams of dedicated artisans, designers and master craftsmen have created a selection of the most beautiful hardwood, fiberglass and wrought iron and steel entryways available. Choose from our hundreds of standard door and decorative glass products or allow our custom department to create the door or window of your dreams. Our dedication to excellence is built into each product and continues with industry leading customer service and product warranties.

CHOOSE YOUR DOOR: ESTANCIA KNOTTY ALDER

Estancia® Knotty Alder Series

The knotty alder Estancia® Series offers a beautiful rustic look and a wide array of finish options. We use real Knotty Alder hardwood from the American pacific northwest (and not a tropical imitation wood). This is a light colored hardwood with mineral streaks and surface knots, and it features a rustic finish when stained and sealed. These doors are offered in 1-3/4" thickness, 2 heights, and 2 widths. See pages 10-13 for knotty alder factory finish options. For more information on the construction specifications of our Estancia Knotty Alder doors, please refer to our product information guides found at www.glasscraft.com.

Please note: Knotty alder, like all hardwood species, varies in color, graining, and appearance. This variance is one of the natural features of a true wood door and adds to its beauty and authentic appearance.

Estancia Advantages

- Heavy raised molding on door exterior on many profiles
- Stave core construction "SCS" of stiles and rails virtually eliminates warping
- Thick laminate layer on both door faces accentuates the rustic beauty of the knots
- Wide stiles add strength for added security
- Authentic cope-and-stick plus dowel construction
- 3-layer raised panel construction
- Environmentally-friendly finish
- Real American Knotty Alder wood

CHOOSE YOUR DOOR: PORTOBELLO MAHOGANY

Portobello® Mahogany Series

The mahogany Portobello® Series offers our widest selection of hardwood doors, sidelites and transoms, our best wood-door warranty, and they feature our unique LamiCore™ technology. Mahogany is a red-brown hardwood that will vary from rich golden to deep red-brown colors and has a beautiful finish when stained and sealed. These doors are offered in 1-3/4" and 2-1/4" thicknesses, depending upon the door profile and height. See pages 11-14 for mahogany factory finish options. For more information on the construction specifications on our Portobello Mahogany doors, please refer to our product information guides found at www.glasscraft.com.

Please note: Mahogany, like all hardwood species, varies in color, graining, and appearance. This variance is one of the natural features of a true wood door and adds authentic beauty and warmth.

Portobello Advantages

- Heavy raised molding on door exterior on many profiles
- Laminated Veneer Lumber Core "LVLC" construction of panels, stiles and rails virtually eliminates warping
- 2 laminate layers on both door faces
- Wide stiles add strength and security
- Authentic cope-and-stick plus dowel construction of specific profiles
- LVL LamiCore panel construction eliminates panel cracks
- Largest number of profile and size options

CHOOSE YOUR DOOR: DOORCRAFT MAHOGANY

DoorCraft™ MahoganySeries

The mahogany DoorCraft® Series provides a broad and economical selection of doors including wrought iron, decorative glass, GBG, and solid panel options, plus many TDL or true-divided-lite doors in a wide array of finish options. Mahogany is a red-brown hardwood that will vary from rich golden to deep red-brown colors and has a beautiful finish when stained and sealed. These doors are offered in 1-3/4" thickness, 2 heights, and 2 widths. See pages 11-13 for mahogany factory finish options. For more information on the construction specifications of our DoorCraft doors, please refer to our product information guides found at www.glasscraft.com.

Please note: Mahogany, like all hardwood species, varies in color, graining, and appearance. This variance is one of the natural features of a true wood door and adds authentic beauty and warmth.

DoorCraft Advantages

- Raised molding on door exterior for decorative glass and wrought iron doors and 6 panel doors
- Stave lumber core construction of stiles and rails virtually eliminates warping
- Double-thick veneer layer on both sides of the door
- Authentic cope-and-stick plus dowel construction
- 3-layer thick raised panel construction
- Real TDL divided lite options with glass texture options
- Environmentally-friendly finish

CHOOSE YOUR FINISH AND COLOR

DURALAST™ Wood Finishing Advantage

GlassCraft has developed an innovative and environmentally sound factory finish option for your door and complete entryway. DuraLast, our exclusive 10-step finishing system applies beautifully colored wood stains while adding multiple protective layers of crystal clear urethane finish coats to your wood door. Each coat is impregnated with ultraviolet UV-inhibitors and additional moisture blocking technology to keep your door looking beautiful. This system produces a finish to complement the inherent beauty of the mahogany and knotty alder wood species.

The DuraLast process involves the deep penetration of tinted solution into the deep layers of each wood cell to prevent water or moisture absorption. The wood door is also processed through a laser-controlled convection-oven cure not just once, but three times to ensure the perfect wood surface curing.

GlassCraft Door Company's finish department is certified by the TCEQ (Texas Commission on Environmental Quality). The TCEQ's mission is to protect human and natural resources consistent with sustainable economic development, with a goal of clean air, clean water, and the safe management of waste. GlassCraft's manufacturing finish facility is inspected and certified by the TCEQ (registration number CN603390188). This is one more way GlassCraft is helping to provide you with information needed to make an environmentally informed purchase.

Traditional Finish

Our traditional finish has been designed to maximize the beautiful rich mahogany and knotty alder wood with a long-lasting 10-step finish process. See page 11 for all Traditional stain colors.

Antique Finish

Our antique finish options feature the deep rich patina that enhance the warmth and antique character of wood, without the additional distressed markings and patterns. See page 12 to see all Antique finish options in mahogany and knotty alder.

Distressed Finish

Our distressed finish provides that special antique patina with distinctive distressed markings and patterns that enhance the aged beauty of wood. This finish is made with a 12-step process that adds a texturized surface such as faux indentations, pits, cracks, scores, and wormholes. See page 13 for all Distressed finish options.

Important note: The images of all finish options shown on pages 11-13 and throughout this catalog offer only an indication of the final appearance and due to the natural variations in the texture, grain, and color of wood, the actual appearance will vary. All finishes will require periodic maintenance.

CHOOSE YOUR HARDWARE OPTIONS: CLAVOS

HAND-CAST DECORATIVE CLAVOS

Use these decorative "clavos" or door nails for installation onto the face of the door to give it a rustic or antique look. Clavos can be mounted on the interior or exterior or both sides of a door, and they may be used with or without the door straps shown on page 14-15. These clavos are handmade and therefore vary slightly. All clavos are available in three color options. Shown below are clavos in Antique Black finish. Clavos will be packaged separately and not installed on all unfinished GlassCraft door products so the door may be properly finished before the clavos are installed. Clavos are installed on prefinished doors.

CLAVOS FINISH OPTIONS:

PRE-HUNG OPTION & ADVANTAGES

PRE-HUNG ENTRYWAYS WITH CONTINUOUS SILL

PRE-HUNG OPTION

GlassCraft doors in this catalog can be ordered as pre-hung door units. Pictures and part numbers for pre-hung doors are shown under each door selection throughout this catalog.

All entryway configurations available for hardwood doors include "continuous" one-piece sills. This means that the bottom sill or threshold is made from one continuous piece of threshold material which adds strength and prevents leaking under the entryway. This assembly design is especially important with configurations that include 1 or 2 sidelights. Other manufacturers may produce this entry configuration using a "boxed" construction method with separate sills for each sidelight.

GlassCraft uses a 1-piece sill construction method for reinforced strength and enhanced appearance.

PRE-HUNG COMPONENTS

Standard Pre-hung entryways include the following:

- 4-9/16" Jamb Legs
- Header
- Standard Sill
- Boots
- Hinges
- Weatherstrip
- T-Astragal (where applicable)
- Flush Bolt (where applicable)
- Mull Posts (where applicable)

Optional Pre-hung components at extra charge:

- 6-9/16" Jamb
- Brick Mold
- Sub-Casing
- Interior Casing
- Endura Sill
- Door Sweep
- Door Bore
- Strikejamb Reinforcement

DOOR FRAME AND HINGE OPTIONS

Hardwood Door Frames with STRIKEJAMB™

All mahogany and knotty alder pre-hung doors are available with a steel-reinforcement StrikeJamb™ as an option.

Pre-hung units include jamb legs, T-astagal (for double doors), standard sill, header, weatherstripping, and adjustable threshold, plus 3 ball-bearing hinges on 6'-8" tall doors and 4 ball-bearing hinges on 8'-0" tall doors.

The StrikeJamb™ reinforcement can be installed on the lock side jamb leg for safety and security. This plate reinforces the jamb leg, and allows the dead bolt and the handleset bolt to throw so that the bolts extend through the corresponding holes in the steel reinforcement plates. In addition, long mounting screws should be used with this StrikeJamb, these screws extending through the jamb leg, then through the steel plate, and finally into the wall studs.

Image at right shows the reinforcing plate from the back jamb leg side.

Hinge Color Options

All prehung units use 3 ball-bearing hinges on 6'-8" tall doors and 4 hinges on 8'-0" tall doors. 1-3/4" thick doors use 4 inch hinges, while 2-1/4" thick doors use 5" hinges. Choose from these four hinge color options shown at left for your pre-hung entry door unit: Oil Rubbed Bronze, Satin Nickel or Flat Black.

Construction Door Options

All standard pre-hung entryways in all configurations are available with a temporary "construction door" as an option. Using this temporary door, the permanent door will not be damaged during house construction. Construction doors are available for double-door and arch top and round top double doors also. Both hollow core and solid core construction doors are available.

Construction Door Part Numbers:

TEMPDOOR1 - Hollow Core 3'0" x 6'8" x 1-3/4"
TEMPDOOR5 - Hollow Core 2'8" x 6'8" x 1-3/4"
TEMPDOOR10 - Solid Core 3'0" x 6'8" x 1-3/4"

TEMPDOOR2 - Hollow Core 3'0" x 8'0" x 1-3/4"
TEMPDOOR4 - Hollow Core 2'8" x 8'0" x 1-3/4"
TEMPDOOR7 - Hollow Core 3'6" x 8'0" x 1-3/4"
TEMPDOOR9 - Solid Core 3'0" x 8'0" x 1-3/4"

JAMB LEG & SILL OPTIONS

Jamb Leg and Mull Post Boots Included

GlassCraft entryways utilize our unique protective jamb leg boots, which are hard rigid plastic parts machined to perfectly match the profile on the bottom edge of a jamb leg. We also use mull post boots at the bottom of all mull posts which are positioned between doors and sidelights. This method of assembly inhibits the hardwood jamb legs and mull posts from rotting over time due to the absorption of water up from the bottom edge of the entryway.

1	Door	4	Door Sweep
2	Door Weatherstrip	5	Door Sill
3	Hardwood Jamb Leg	6	Hard Plastic Jamb Leg Bottom

Images show the bottom corner of door (1), sill (5) and jamb leg (3) (6).

Sill and Sill Color Options

All standard pre-hung exterior door units use adjustable composite sills that help prevent water penetration, rotting, warping, and discoloration. Our standard adjustable composite sill includes a peel-off protection film which protects the sill during the house construction, and is made from 100% composite and aluminum materials. The "adjustable" feature allows the top of the sill to be adjusted with a screwdriver to match the correct height required for the bottom of the door. Optionally, you may select the Endura® Brand adjustable composite threshold or an ADA threshold. The ADA threshold is approved for use with wheelchairs. ADA sills are 5" x 1/2" or 7" x 1/2". The Endura Z-Series Sill System (for an extra charge) provides a walnut colored sill cap, the adjustable feature, and a hard plastic protective construction cover.

STANDARD SILL with Composite substrate that will not warp or rot. Available in both bronze and mill finish.

OPTIONAL ENDURA brand threshold is available in both Bronze and Mill Finish, and includes a removable hard protective construction cover.

OPTIONAL ADA threshold. Available in Bronze or Aluminum.

WOODCRAFT PERFORMANCE & WARRANTY

Windstorm Approvals for Pre-hung Doors

Most of GlassCraft's premium mahogany and knotty alder entryways have been evaluated for compliance and are approved for installation in designated catastrophe areas along coastal zones when installed as required and as specified. Both 6'8" tall and 8'0" tall entryways have been assigned Design Pressure "DP" ratings for a variety of entryway configurations, including single doors, double doors, single doors with 1 or 2 sidelites, and entryways with all transom configurations. Both Speakeasy doors and doors with glass have been approved with in-swing and out-swing configurations. These wood doors are not approved for hurricane impact, however many of our FiberCraft Premium Series doors ARE approved for impact.

You should inquire with your local building authorities to ascertain the required DP rating for your area. Then visit www.glasscraft.com/testing.asp to determine which doors are available for you.

Available Windstorm Rated Wood Doors

These WoodCraft pre-hung entry doors are available with windstorm rated option:

- 2 Panel Solid doors - Single: 6'8" and 8'0" Solid Panel doors with Speakeasy (excludes DoorCraft and all plank doors)
- Wrought Iron - Single: 6'8" 3/4 Lite, Arch Lite, full Lite; Single 8'0" 3/4 Lite, Arch Lite, and 2/3 Lite
Double: Arch Top, Round Top and Square Top Arch Lite
- TDL - Single: 6'8" 6 Lite, 4 Lite; 8'0" 6 Lite and 8 Lite
Double: Arch Top and Arch Top Rail 6 Lite

Note: DoorCraft Solid Panel and Wrought Iron entry door units are not available with windstorm-rated options.
To order windstorm rated doors, choose the windstorm option on GlassCraft's order form.

Warranty for WoodCraft entry doors

The exposure to environmental conditions is a dominant factor in a wood door's lifespan. Not all applications are appropriate for wood doors; wood doors require protection from environmental conditions and must be installed in a protected opening with adequate roof overhang. The minimum roof overhang needed is one in which the roof overhang projects out a distance from the structure no less than one-half of the elevation difference between the bottom edge of the door and the base of the overhang's highest point above the entryway. For complete installation, finishing and maintenance requirements for your wood door please read GlassCraft's Guidelines for Your Hardwood Door.

Visit our web site at www.glasscraft.com to download a copy of our wood door Warranty and Guidelines.

MULTI-POINT LOCK SETS AND BENEFITS

Multi-point Lock Sets Add Security

Increase security and peace of mind with GlassCraft's multi-point lock option with deadlocking tongues built to work with traditional grip hardware. Choose from any of the multi-point handle set trim options shown on the next 2 pages. This multi-point system is activated with the turning of the dead-bolt lock. All 3 locking points are engaged only when the dead bolt point is locked by turning the thumb latch.

Our multi-point lock set includes an anti-saw and kick-proof center dead-bolt for maximum security and a 90-degree consumer friendly locking operation, so you visually know the door is locked when the dead-bolt knob is in the horizontal position. In addition, these multi-point assemblies are produced using heavy-gauge steel with a zinc dichromate finish per ATSM-8633 testing standard. Stainless steel models are available for both 6-8 and 8-0 sizes for coastal installation.

Multi-point lock systems use our standard GlassCraft flush bolts installed on the passive door of a pre-hung double door, which gives the homeowner the option to include dummy handle sets on the passive door with all multi-point lock sets.

Precision-engineered components reduce the need for service calls, providing years of trouble-free service. These multi-point assemblies have been cycle-tested to exceed 300,000 locking cycles. Adjustable strike plates allow for field adjustment during and after installation. The design of these multi-point systems allows for right hand or left hand installation with the same part.

GlassCraft provides installation of the 3-point lock mechanism into the door, and installation charges are included in the cost of these lock sets. Installation involves precision machining of the edge of the door slab, which is performed with CNC machines to ensure precision.

When ordering for double doors, only 1 multi-point lock set is required. You may choose to include a "dummy" handle set on the inactive door for appearance purposes.

Available options are:

- Standard multi-point assembly for 6-8 door
- Standard multi-point assembly for 8-0 door
- Stainless steel multi-point assembly for 6-8 door
- Stainless steel multi-point assembly for 8-0 door
- Standard 1-point assembly for 6-8 or 8-0 door

Door shown above is a 6-8 Arch Lite New Orleans decorative glass and multi-point lock set.

Adjustable Strike Plates are included with each handle set. Choice of Antique Nickel, Satin Nickel or Oil Rubbed Bronze.

Close up image of multi-point center dead bolt.

SINGLE-POINT OR MULTI-POINT HANDLE SETS

Drop-Forged Solid Brass Handle Set & Lock Options

These lock sets are produced by the traditional drop-forged process utilizing solid brass, and featuring heavy gauge construction, a precision engineered mechanism, and superior corrosion protection. A drop-forged part ensures strength and durability. All use a standard 5 pin SC1 Keyway. Wide bow keys provided.

All of the lock sets shown on these two pages are compatible with our multi-point lock systems shown on page 21. In addition, the **Windsor**, **Savoy**, and **San Jose** are also available as "one-point" traditional lock sets for both 6'8" and 8'0" tall doors. And all lock sets are available as "dummy" lock sets, which are used for double-door installations. These dummy lock sets do not have any internal mechanisms and are mounted on the "inactive" door, with one-point or multi-point lock sets used on the "active" door.

The **Sapphire** and **Verano Satin Nickel** multi-point and dummy lock sets are also available with a special "PVD" coating on the handle set and stainless steel for the multi-point mechanism for use in coastal installation applications. These are noted as Coastal in the item descriptions. This PVD Physical Vapor Deposition coating is harder, more resistant to corrosion and abrasion, and provides a longer-lasting coating when used in coastal areas.

All lock sets shown may be used for right-hand or left-hand door swings and all hardware necessary is included. Installation into the door slab is included in the pricing of all of these one-point and multi-point lock sets.

8'0" Estancia Knotty Alder Round Top Plank Double Doors (see page 33) with optional Litchfield hinge straps, Windsor handle, and peephole in right side door. Doors shown in Traditional Natural finish.

SOLID PANEL & PLANK ENTRY DOORS

WOODCRAFT COLLECTION

The WOODCRAFT COLLECTION SOLID PANEL & PLANK DOORS

Solid Panel & Plank Doors

The Solid Panel and Plank mahogany and knotty alder series of doors, sidelites and transoms provide an impressive range of options and finishes.

Doors feature laminated, engineered stiles and rails to virtually eliminate warping. DoorCraft Series and Estancia Series panels are constructed using a 3-piece assembly that incorporates a cross-grained, multi-layer spline to eliminate panel splitting. Portobello Series doors utilize LVL-reinforced door panels. Doors are assembled using an authentic doveled cove-and-bead technique.

Factory Finish Option

Choose from six finish colors in our Traditional, Distressed and Antique finish options. See pages 10-13 for photos of GlassCraft's mahogany and knotty alder factory finish options.

Pre-Hung Option

GlassCraft doors may be ordered individually, or as assembled, pre-hung units in matching mahogany or knotty alder jambs for exterior applications. Pre-hung part numbers are available with each door selection in this catalog.

Decorative Straps & Clavos Options

See pages 14-15 for full details on GlassCraft's handmade decorative wrought iron hinge straps, L straps and T straps. Example drawings are available throughout this section.

Use the decorative door straps for installation onto the face of a door to give it a rustic or antique look. Door straps can be mounted on the interior, the exterior or both sides. Straps may be used with or without the clavos shown on page 16. These door straps are hand-crafted and therefore vary slightly. Iron straps include handmade mounting nails. Examples of our wrought iron hinge straps and corner strap configurations can be found on page 14.

Iron straps, clavos and speakeasy grilles will be packaged separately and uninstalled on all unfinished GlassCraft door products so the door may be finished before the iron straps, clavos and speakeasy grilles are installed.

V-Groove Option

The Estancia Knotty Alder door panels may be V-grooved to give the look of a rustic door. V-grooving gives a "plank" appearance to the door panel. The quantity of V-grooves varies with the width of the specific door.

Knotty Alder Round Top Single Plank Door with V-Grooves, Madrid Speakeasy and Clavos.

The WOODCRAFT COLLECTION SOLID & PLANK DOORS

Speakeasy Grille Options

Most of our solid panel doors shown in this section may be ordered with our "speakeasy" option installed (see photo below). With this option, a small, operable rectangular door is installed in the upper door panel at a height of approximately 5'-6" (speakeasies are installed lower on the round top double doors). This small door is hinged and latched from the interior side of the door. The speakeasies are available in four wrought iron grille designs.

WR16 Florentine

WR15 Madrid

WR105 Star

WR103 Seville

Speakeasy Grille & Latch Color Options

Each external wrought iron speakeasy grille design has been forged by artisans and is individually crafted by hand and will vary. This variance is a feature of wrought iron and adds to the beauty and appearance of the wrought iron grille. The handmade wrought iron grilles are powder coated for durability. The speakeasy grilles are available in 3 color options, while the speakeasy latch is available in 2 color options, as follows:

Antique Black

Antique Bronze

The WOODCRAFT COLLECTION SOLID & PLANK DOORS

Speakeasy Glass Options

Choose from eight different glass texture options to complement your wrought iron and hardwood entry door. All glass textures shown below are produced using a double IG (insulated glass) unit to provide safety, security, and energy efficiency. The capacity to see through the glass panel varies depending upon the glass texture chosen. Water texture options offer a light obscured view or level of privacy. Ice Flower, Flemish and Reeds glass options offer a moderate level of obscured view. Rain, Ocean and Granite give the highest level of privacy.

DECORATIVE GLASS DOORS

WOODCRAFT COLLECTION

The WOODCRAFT COLLECTION DECORATIVE GLASS DOORS

Mahogany & Knotty Alder Decorative Glass Doors

8'0" Mahogany 3/4 Lite Courtlandt prefinished in Canyon Brown. See page 56.

The hardwood doors in this catalog section include our DoorCraft mahogany, Portobello Mahogany, and our Estancia Knotty Alder doors. See pages 50-87 for available designs. Our decorative glass panels are Quality Crafted™ in our workshops to assure you of excellent craftsmanship and elegant designs.

Our decorative glass doors and sidelites feature triple-thick IG panels that permanently seals the decorative glass panel inside two sheets of tempered safety glass. These IG glass panels improve security, energy efficiency and protect the beveled glass panel from possible glass breakage.

PRIVACY & PATTERNS™ ENTRY DOORS

WOODCRAFT COLLECTION

The WOODCRAFT COLLECTION TEXTURED GLASS DOORS

Clear & Texture Patterned Glass Panels

The hardwood doors in the Clear & Textured Glass Collection are available in Portobello Mahogany, Estancia Knotty Alder and DoorCraft Mahogany. These doors feature simple and clean appearance of textured glass panels that can match a wide range of architectural styles.

All doors in this collection feature double-thick IG glass panels which improve security, energy efficiency and ease of cleaning. There are 8 glass textures to choose from.

INSULATED IG GLASS PANELS

Glass Options for Textured Glass Doors

Choose from eight different glass texture options to complement your mahogany or knotty alder door. All glass textures shown below are produced using a double IG (insulated glass) unit to provide safety, security, and energy efficiency.

8'0" Knotty Alder Arch Top Double Door with Catalina Wrought Iron, Sierra Brown finish and Ocean glass.

WROUGHT IRON ENTRY DOORS

WOODCRAFT COLLECTION

WOODCRAFT WROUGHT IRON DOORS

Mahogany & Knotty Alder Doors with Wrought Iron

8'0" Mahogany 2/3 Lite Door with Valencia wrought iron grille and clear glass, pre-finished in Canyon Brown. See page 108.

The wrought iron mahogany and knotty alder series of doors, sidelites and transoms provide an impressive range of hand-made wrought iron grilles, door options and finishes. Portobello and Estancia Series doors with wrought iron feature an operable hinge option so that the iron grilles can be opened for easy cleaning of iron and glass. Or the grilles may be tightened for security. (DoorCraft doors with wrought iron do not offer this feature.) Matching wrought iron transoms and sidelights are available for many grille designs.

BEAUTIFUL OPTIONS:

- Choose your grille design and finish
- Choose your glass texture
- Add matching Sidelights or Transoms
- Add Decorative Straps, Clavos or V-Groove Option
- Choose your Traditional, Antique or Distressed finish.

Wrought Iron Straps, Clavos, and Operable Hinges

Optional Clavos & Straps

Optional Operable hinge

Operable grille*

- Add Decorative Straps & Clavos for a unique, rustic look
- Portobello and Estancia doors feature an optional operable grille hinge to allow grille to open
- Iron grilles, straps and clavos are available in three colors

Operable grille hinge item #: WRH

WOODCRAFT WROUGHT IRON DOORS

PORTOBELLO & ESTANCIA - GRILLE OPTIONS

The Portobello mahogany and Estancia knotty alder wrought iron doors are available in three grille color options: Antique Black, Antique Bronze and Antique Pewter. The wrought iron grilles are powder coated for durability and made by hand individually. This craftsmanship results in variance of appearance, but also adds a unique beauty and rustic elegance to each wrought iron grille. Choose from 9 beautiful grille designs: Bellagio, Warwick, Catalina, Barcelona, Charleston, Valencia, La Salle, St. Charles, and Texan.

Antique Black

Antique Bronze

Antique Pewter

9 Grille Designs
3 Grille Colors

PORTOBELLO & ESTANCIA - GLASS TEXTURE OPTIONS

Choose from eight different glass texture options to complement your wrought iron and hardwood entry door. All glass textures shown below are produced using a double IG (insulated glass) unit to provide safety, security, and energy efficiency. The capacity to see through the glass panel varies depending upon the glass texture chosen. Water texture options offer a light obscured view or level of privacy. Large Flemish, Ice Flower and Reeds glass options offer a moderate level of obscured view. Rain, Ocean and Granite give the highest level of privacy.

WOODCRAFT WROUGHT IRON DOORS

DOORCRAFT MAHOGANY - GRILLE OPTIONS

The DoorCraft mahogany wrought iron doors are available in 3 grille designs: Lavaca, Navasota, and Salado. Each wrought iron grille design has been crafted by artisans and individually made by hand and will vary. This variance is a feature of wrought iron and adds to the beauty of the wrought iron grille. Available in Antique Black grille color only.

DOORCRAFT MAHOGANY - GLASS TEXTURE OPTIONS

Choose from four different glass texture options to complement your wrought iron and mahogany DoorCraft entry door. All glass textures shown below are produced using a double IG (insulated glass) unit to provide safety, security, and energy efficiency. The capacity to see through the glass panel varies depending upon the glass texture chosen. Granite, Ocean, and Rain glass textures offer more obscure levels of visibility.

6'8" Estancia Knotty Alder 6 Lite TDL door (see page 135) with 2 sidelites in Traditional Sierra Brown finish with Flemish glass.

TRUE DIVIDED LITE ENTRY DOORS

WOODCRAFT COLLECTION

The WOODCRAFT COLLECTION TRUE DIVIDED LITE DOORS

Real TDL in Estancia Knotty Alder & DoorCraft Mahogany

8'0" Mahogany 6 Lite Arch Top TDL Double Door
prefinished in Distressed Canyon. Brown. See page 131.

The TDL (True Divided Lite) series of mahogany and knotty alder doors will complement a wide range of architectural styles. TDL doors in this catalog are true divided lite (TDL) doors, and do not use simulated divided lites. This TDL Series provides an impressive range of options and finishes. Choose from six finish colors in our Traditional, Distressed or Antique finish options. See pages 11-13 for photos of GlassCraft's mahogany and knotty alder factory finish options.

These Divided Lite doors may be ordered individually, or assembled in matching mahogany or knotty alder jambs for both interior and exterior applications.

TDL DOOR CONSTRUCTION & PRE-HUNG OPTIONS

- Widths available: 2'6" | 2'8" | 3'0"
- Heights available: 8'0" | 6'8"
- Standard TDL doors use 1-7/16" muntin bars
- Continental Collection of TDL door have wide horizontal bars.
- Doors assembled using authentic doweled cove-and-bead technique.
- Matching sidelites available on many door profiles. Transoms available with clear beveled glass only.
- No raised moldings
- TDL doors with double-glazed IG have been tested and approved in windstorm areas.

CRAFTSMAN ENTRY DOORS

WOODCRAFT COLLECTION

The WOODCRAFT COLLECTION CRAFTSMAN DOORS

Craftsman, Mission and Bungalow Style Doors

GlassCraft's Craftsman, Mission and Bungalow door selection provides an impressive range of options, including finishes (see pages 10-13), matching jambs, sidelights and transoms (for select door styles), and grille options (for Bungalow doors).

These doors may be ordered individually, or assembled in matching mahogany or knotty alder jambs for exterior applications.

DOOR CONSTRUCTION ADVANTAGES:

- Laminated, engineered stiles and rails to eliminate warping of the doors.
- Door panels on Mission doors use a 3-piece assembly featuring a cross-grained spline in the core to eliminate panel splitting.
- Craftsman style doors feature traditional flat panel design using multiple layered panels for strength.
- Portobello Bungalow doors use a unique "split-resistant" panel design that inhibits cracking or warping of the large panels.
- All doors in this collection are assembled using an authentic doweled cove-and bead technique.
- Features authentic True Divided Lite or TDL construction with 1-7/16" wide muntin bars for the double-thick IG glass panels for energy efficiency.

Double Glazed Safety Glass and Dentil Shelves

All doors in this section feature double-thick tempered insulated glass panels with two layers of safety glass for security, strength, and energy efficiency. Different glass textures are available.

All Mission, Craftsman and Bungalow doors utilize an authentic True Divided Lite door construction with wide muntin bars (1-7/16").

Dentil shelves are included on all Craftsman and Bungalow doors without iron. You may request these to be left off the doors.

The WOODCRAFT COLLECTION CRAFTSMAN DOORS

BUNGALOW DOORS - Door Pegs and Wrought Iron Grilles

The Bungalow Doors featured in this section include simulated door pegs. The simulated door pegs offer a beautiful appearance to this traditional door style. While these pegs are included with our doors, you may request that they be constructed without the door pegs.

The 6'8" and the 8'0" tall Bungalow Doors are offered with two wrought iron grille options. These grilles are hand-made and forged one at a time to create a classic appearance for your entryway. Each is unique, and each is slightly different than the next. The grilles are mounted on the face of the door over the glass opening, and are non-operable (meaning that these grilles are NOT hinged for opening).

Simulated Door Pegs on Bungalow doors

Winslow Grille - WR101

Hawthorne Grille - WR103

BUNGALOW DOORS - Glass Texture Options

Choose from eight different glass texture options to complement your Bungalow Door selection shown on pages 144-145 (with grilles) and on page 143 (with 1 lite). Choose from 3 texture options (clear bevel, water and rain textures) for the 4 Lite Bungalow Doors on page 142. Glass texture panels are produced using a double insulated glass unit to provide safety, security, and energy efficiency. The capacity to see through the glass panel varies depending upon the glass texture chosen.

GBG ENTRY DOORS

WOODCRAFT COLLECTION

The WOODCRAFT COLLECTION **GBG DOORS**

Patented Decorative GBG Panels

The wrought-iron inspired collection of decorative “grille-between-the-glass” or GBG doors are unique in their appearance, and feature simulated hand-tooling marks and unique designs. GlassCraft has multiple US Patents approved for this product! There are four GBG grille designs to choose from: Cantania, Novara, Palermo, and Florence. Each decorative grille is finished in antique black, mounted between two pieces of tempered safety glass. There are four glass texture options available with varying obscurity levels – all of which allow daylight to enter. All designs are registered copyright designs created by GlassCraft Door Company.

DOORCRAFT MAHOGANY DOORS with GBG Panels

The mahogany DoorCraft® Series provides a broad and economical selection of doors including the GBG doors shown in this catalog section, all with a wide array of finish options. Mahogany is a red-brown hardwood that will vary from rich golden to deep red-brown colors and has a beautiful finish when stained and sealed. These doors are offered in 1-3/4” thickness, 2 heights, and 1 width. See pages 11-13 for mahogany factory finish options, and refer to pages 8-9 for more information on these DoorCraft series of doors.

DoorCraft GBG Doors - Glass Options

Choose from four different glass texture options to complement your GBG and mahogany DoorCraft entry door. All the glass textures shown above are produced using a double IG (insulated glass) unit to provide safety, security, and energy efficiency. The capacity to see through the glass panel varies depending upon the glass texture chosen. Granite, Ocean and Rain glass textures offer more obscure levels of visibility.

PORTOBELLO CONTEMPORARY DOORS

WOODCRAFT COLLECTION

The WOODCRAFT COLLECTION CONTEMPORARY DOORS

Contemporary Portobello Mahogany Doors

The Portobello Mahogany doors in the Contemporary Collection offer a sleek, "retro" modern look. This collection is available in the following designs: Brentwood, Westwood, Inglewood, Fleetwood, Malibu, Santa Monica, Venice, Beverly, Huntington, and Newport.

FEATURES OF THE CONTEMPORARY PORTOBELLO DOORS:

- Sleekest modern look and minimalist design with True Flush Glazed glass panels. No raised moldings.
- Premium engineered wood core construction.
- Impressive range of options and finishes.
- Sizes: 2'8", 3'0", and 3'6" widths; 8'0" and 6'8" heights.
- Double glazed insulated safety glass
- Four metal grid options: Matrix, Urban, Noble and Trellis

Four Metal Grid Options (for doors in this section)

Matrix 4 - PRIVACY RATING

Urban 4 - PRIVACY RATING

Noble 4 - PRIVACY RATING

Trellis 6 - PRIVACY RATING

Choose from four different metal grid texture options to complement your contemporary mahogany entry door. The real decorative metal grids shown above are mounted between 2 pieces of clear glass as a double IG (insulated glass) unit to provide safety, security, and energy efficiency. The capacity to see through the glass panel and grid varies depending on the grid design chosen.
