FIRE RATED DOORS

Made with fire retardant composite, Plastpro Fire Rated Doors are tested to withstand fire for a minimum of 20 minutes. Plastpro Fire Rated Fiberglass Doors qualify homeowners for energy savings that result in the reduction of your overall energy bill. We are the first and only fiberglass door manufacturer that provides not only fire rated doors, but waterproof entry systems as well. Our fire rated doors are extremely durable and fire resistant. Most importantly, our doors provide a safe home that's affordable and energy efficient.

20 MINUTE FIRE RATED DOORS

Plastpro 20 Minute Fire Rated exterior entry doors bear the Warnock Hersey Mark of product safety, performance, and quality. Plastpro is subjected to quarterly plant audits to include FTIR component material validation testing verifying the molecular fingerprint of the fire rated door sub components. The doors are produced in the most advanced, fully integrated, computer controlled, automated manufacturing facility in the door industry. This enables Plastpro to achieve the highest quality products available in the door industry.
