A social entrepreneur is one who develops an innova-tive answer to a social problem (for instance a business model for helping to tackle poverty). A decade ago, the term was scarcely heard: today, everyone wants to be(1).... The idea behind social entrepreneurship is that fresh business-like ideas will ...(2).... a produc-tivity miracle in the 'social sector' similar to the one that ...(3).... in business in 1990s. Already a growing number of social entrepreneurs have made a ...(4).... The best known is Munammad Yunus, founder of Grameen- a microfinance organisation. Another ...(5)... example is Wendy Kopp, the founder of Teach for America which puts thousands of recent(6).... from leading universities to work as teach-ers in some of the country's worst schools. However(7).... far, the enthusiasm for social entrepreneur-ship has run ahead of its affects. The(8).... has not been a lack of good idea. Innovative projects have ameliorated seemingly(9).... social troubles for instance by reducing rates of reoffending by former prisoners or by(10).... prisoners from rougher parts of American cities to graduate from college. The problem is of speed and scale. Successful innovations have spread only slowly, if at all. Policymakers hope that with encouragement from the government, social entrepreneurs' best ideas can be spread faster and wider.

.....(1)..... that two people are carving a six-foot slab of wood at the same time. One is using a hand-chisel, the(2)..... a chainsaw. If you are(3)..... in the future of that slab, whom would you watch? This chainsaw or chisel logic has led some to a(4)..... that technological education is more important to humanity's near fu-ture than biological evolution, now a days, it is not the biological chisel but the technological chainsaw that is most quickly(5)..... what it means to be human. The devices we use change the way we live much(6)..... than any contest among genes. We're the block of wood, even if, sometimes we don't even fully notice that we're(7)..... Assuming that we really are evolving as we ..(8).. or inhabit more technological prosthetics-like ever-smarter phones, helpful glasses and brainy cars-here's the big question.....(9)..... that type of evolution take us in(10)..... directions, as we usually assume biological evolution does?
