Directions (41-45): Read the given passage and answer the questions that follow.

Climate policy must now put health at the centre and promote climate change mitigation policies that bring health benefits simultaneously. Health-focused climate policy would help bring about a planet that has cleaner air, more abundant and safer freshwater and food, more effective and fairer health and social protection systems and, as a result, healthier people.

Investment in clean energy offers double the returns through health benefits. Implementing proven interventions, such as stricter vehicle emission standards, could save roughly 2.4 million lives annually via improved air quality, while lowering global warming by about 0.5°C by 2050. Additionally, the cost of renewable energy sources has dropped considerably, with solar energy becoming a key, affordable option.

41. What is the ANTONYM for the word 'intervention', from the passage?
