Directions (1-7): In the following passage there are blanks, each of which has been denoted by letters. For each blank each, four words are suggested. Following the words, five options are given. Choose the most appropriate set of words from the options that fits the blank appropriately.

Global warming is increasing, an ____ (A) ____ phenomenon catalyzed by the ____ (B) ____ accumulation of greenhouse gases in Earth's atmosphere. This insidious ____ (C) ____ precipitates a plethora of ____ (D) ____ effects, paramount among them the exacerbation of climate change. The intricate interplay between anthropogenic activities and natural processes has engendered a scenario where the stability of global climate systems is under unprecedented threat.

At the heart of this ____ (E) ____ predicament lies the combustion of fossil fuels, a practice that has become the linchpin of modern civilization. The ____ (F) ____ release of carbon dioxide, methane, and other greenhouse gases has engendered a thickening of the atmospheric blanket, trapping heat and precipitating a global temperature uptick. This thermic augmentation is not merely a statistic; it is a ____ (G) ____ of a cascade of environmental calamities.

Directions (8-14): Read the following passage and answer the given questions based on it.

In a world dominated by digital advancements, Rohan, a seasoned software engineer with thirty years of experience, decided to embark on a transformative journey. Eager to contribute to his family's legacy, he embarked on an agricultural journey alongside his brother. Together, they chose to cultivate millets, a crop that thrived in the village's climate and offered resistance to pests, aligning perfectly with their aspirations for sustainable farming.

The village's reliance on age-old farming tools and techniques posed a challenge for maximizing millet production. Recognizing the potential for modern technology to enhance agricultural efficiency, Rohan applied his engineering expertise to introduce innovative farming practices. His efforts were met with remarkable success, leading to a significant improvement in millet yields.

Rohan's achievements extended beyond his own fields. He became a catalyst for change, sharing his newfound agricultural knowledge with fellow villagers. His initiative to incorporate technology in farming sparked a collective advancement in agricultural practices within the community.

Understanding the economic challenges faced by farmers due to intermediary exploitation, Rohan founded an agro-based company. This venture enabled direct transactions between farmers and the company, eliminating the need for middlemen and significantly increasing farmers' profits by 30%.

The village, once known for its traditional farming, gained recognition for its prolific millet production and innovative agricultural practices under Rohan's influence. His journey from a software engineer to a pioneering farmer exemplifies the power of blending technological innovation with traditional wisdom to foster community development and sustainability. Rohan's story is a testament to the impactful change one individual can bring to agriculture, transforming his village into a beacon of progress.

8 Which of the following statement is **CORRECT**?

- (a) Rohan initiated his agricultural venture with assistance from his father.
- (b) The choice to cultivate millets was driven by their higher market prices for farmers.
- (c) Millets exhibit resistance to pests.
- (d) Engaging in millet cultivation resulted in significant financial losses for the village's farmers.
- (e) None of the above statements are correct.

9. Which of the following statement(s) is/ are CORRECT based on the passage?

- (I) Millets were chosen for their high market price and profitability.
- ☒ (II) Rohan applied his engineering expertise to overcome the challenges posed by traditional farming methods.
- (III) The introduction of innovative farming practices had no significant effect on the community's agricultural practices.

- (a) Only (I)
- (b) Both (I) and (II)
- ☒ (c) Only (II)
- (d) Both (II) and (III)
- (e) All (I), (II), and (III)

10. Which statement(s) does NOT align with the details in the passage?

- (I) Rohan's decision to cultivate millets was primarily due to their ease of cultivation and low maintenance.**
- (II) The significant improvement in millet yields was attributed to Rohan's engineering expertise and the adoption of innovative farming practices.**
- (III) Rohan's venture into agriculture had little impact on the economic challenges faced by farmers in the village.**

- (a) Only (I)**
- (b) Both (I) and (II)**
- (c) Only (III)**
- (d) Both (I) and (III)**
- (e) All (I), (II), and (III)**

11. Which of the following statement(s) is/ are CORRECT based on the passage?

- (I) Rohan relied on traditional wisdom to enhance agricultural practices in his village.
- (II) Direct sales facilitated by Rohan's agro-based company significantly cut down the exploitation by intermediaries.
- (III) Rohan's transition to agriculture was inspired by a desire to contribute to his family's legacy.

(a) Only (I)

(b) Both (I) and (II)

(c) Only (III)

(d) Both (II) and (III)

(e) All (I), (II), and (III)

12. How did Rohan's agro-based company impact the farming community?

- (a) By providing advanced agricultural tools and resources that directly contributed to increased millet production.
- (b) Through facilitating educational workshops on innovative farming techniques, leading to widespread adoption among villagers.
- (c) By enabling sales channels between farmers and markets, thereby ensuring fairer prices for their produce.
- (d) Through the introduction of pest-resistant millet varieties, specifically engineered to thrive in the village's climate.
- (e) By cutting out intermediaries, which resulted in a substantial increase in the farmers' profits.

13. Based on the passage, why did Rohan choose millets as the crop for his agricultural venture?

- (a) Millets were the most profitable crop in the market at the time.
- (b) He had extensive prior experience in cultivating millets.
- ☒ (c) Millets thrived in the village's climate and offered resistance to pests.
- (d) The local government provided subsidies for millet cultivation.
- (e) Millets required less water compared to other crops, making them ideal for the village's dry climate.

14. What was the primary challenge Rohan faced when he began his agricultural venture in the village?

- (a) A lack of interest from the village community in adopting new farming methods.
- (b) The village's reliance on age-old farming tools and techniques that limited farming practices.
- (c) Difficulty in finding a suitable crop that could thrive in the local climate.
- (d) Resistance from local middlemen who were threatened by his innovative approaches.
- (e) The high cost of importing modern agricultural technology to the village.
