1.

a) Regular exercise and healthy diets are

b) more effective than much pharmaceuticals

c) for a wide range of diseases,

d) but they are not easy to practise.

e) No error

C.M

Many

2.

- a) Vienna's imperial lineage
- b) and its association with
- c) empire, can be traced back
- d) to the city's founding.
- e) No error

(V3)

3.

a) Falling under Habsburg rule in

b) the 13th century, Vienna quick

c) rose to prominence,

d) becoming a university city.

e) No error

4.

- a) It remained an imperial city until
 - b) 1918, when the Austro-Hungarian
 - c) Empire collapsed at the
 - d) end of the First World War.
 - e) No error
- 

5.

- a) Beethoven was a divisive
- b) figure in Vienna, and his music sometimes
- c) caused audiences and critics
- d) to questioned his taste.
- e) No error

6.

- a) Temper tantrums in up to a
- b) quarter of young children could
- c) be caused by food colourings
- d) added to popular brands.
- e) No error

7.

- a) He was also infamous for his
- b) piercing stare, bullying, bursts of temper
- c) and, on occasion, his sullen
- d) refuse to speak at all.
- e) No error

8.

- a) If some cause aroused his
- b) temper, him seemed as terrible
- c) as a lion, but he never
- d) revealed his anger by shouting.
- e) No error

9.

a) Just because you need to buy a cable

b) in addition to you're printer

c) does not give you license to

d) fly off the handle at the sales rep.

e) No error

your

10.

- a) There are still moments when
- b) they lose confidence, but for
- c) the most part they understands
- d) that they are safe here.
- e) No error

11. 1. Millions of organisms inhabits the sunlit water, and they are far more diverse than scientists even imagined.

✓

2 Researchers reported the results of the first global survey of plankton — the miniature animals, algae, bacteria and viruses that float in the open sea.

3. The data will help scientists better understand the lives of plankton and how plankton communities will respond to a changing climate.

a) Only 2

b) Only 1 and 2

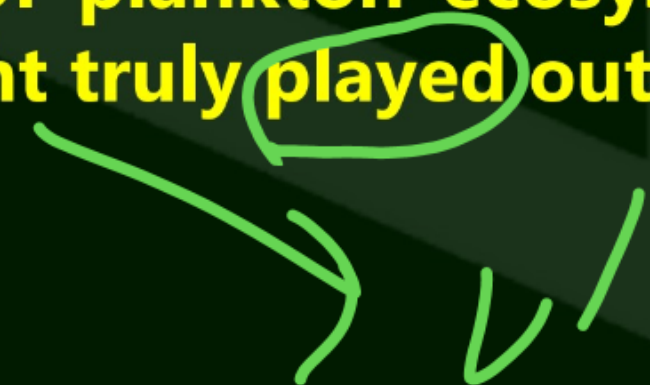

c) Only 1 and 3

d) Only 2 and 3

e) All 1, 2 and 3

12. 1. Much of these organisms serve as food sources for bigger organisms, like fish.
2. Marine phytoplankton also fixes about half the carbon dioxide that gets released into Earth's atmosphere.
3. For this reason, some have suggest manipulating plankton to stem global warming.
- a) Only 2
- b) Only 1 and 2
- c) Only 1 and 3
- d) Only 2 and 3
- e) All 1, 2 and 3

13. 1. Plankton is our planet's most prolific life form, and the food it generates makes up the base layer of the global food chain.
2. The variety of shapes among plankton species shames plants on land, showing more range in size than the difference among moss and redwood trees.
3. There are more plankton cells in the sea than our current count of stars in the entire universe.
- a) Only 3
 - b) Only 1 and 2
 - c) Only 1 and 3
 - d) Only 2 and 3
 - e) All 1, 2 and 3

14. ✓ 1. Oceans absorb most of the heat produced from greenhouse gas build up, and temperature is only projected to increase.
- ✓ 2. A September 2014 study suggested that increased water temperature might cut plankton populations by messing with natural cycles of nitrogen, carbon and phosphorus.
3. But that work is based in computer modeling, and without a full picture of plankton ecosystems, it's unclear how things might truly played out.
- a) Only 1
- ✓ b) Only 1 and 2
- c) Only 1 and 3
- d) Only 2 and 3
- e) All 1, 2 and 3
- 

15. 1. For farming, the latest climate fix isn't especially high_tech or glossy.
2. By spreading rock dust over large swatches of land, carbon dioxide could be trapped from the atmosphere.
3. If this technique were to be employed around the world, scientists estimate two billion tons of carbon dioxide could be removed from the atmosphere each year.
- a) Only 1
b) Only 1 and 2
c) Only 1 and 3
d) Only 2 and 3
e) All 1, 2 and 3
-
