1. P: This time the court will have to do more than pro-nounce on whether the provision discriminates against men on the basis of gender and gives an un-constitutional exemption to women.
- Q: It has further noted that in a case of adultery, one person is liable for the offence, but the other is absolved and that the concept of gender neutrality, on which criminal law normally proceeds, is absent.
- R: By agreeing to have another look at the constitutional validity of Section-497 of the Indian Penal Code, under which men can be prosecuted for adultery, the Supreme Court has re-opened a question that has been decided thrice in the past.
- S: While agreeing to issue the notice to the government, the Bench has observed that the provision is archaic.

2. P: One lakh rupees invested in Bitcoin in 2010 would be worth a few hundred crore rupees today.

Q: In fact, all it took for the currency to reach \$ 11000 after breaching the \$ 10000 mark was a single day.

R: In 2017 alone, Bitcoin price has increased by over 1000%. ✓

S: That is the kind of extraordinary return the digital currency has given to investors as its price has witnessed a meteoric rise, from just a few cents in 2010 to hit a lifetime high of over \$ 11000 last week.

3. P: Even the periodic directions of the Supreme Court in a public interest case, Dr. S. Rajasekaran vs. Union of India, have not produced any dramatic change in the official attitude.

Q: But as anyone who uses India's roads knows only too well, that is not an administrative priority.

R: The most effective measure to keep roads safe is enforcement of rules with zero tolerance to violations.

S: Despite the court setting up the Committee on Road Safety and appointing an amicus curiae to help implement its recommendations, it is mostly business as usual for the police in enforcing road rules, for engineers tasked with forming roads and pavements, and transport officials in charge of licensing.

4. P: But it is the conflict between the massive scope for progress provided by the digital era and the fear of loss of individual autonomy that is foregrounded in any debate about data protection laws.

Q: It also enhanced the perils of unregulated and arbitrary use of personal data.

R: Unauthorised leaks, hacking and other cyber crimes have rendered data bases vulnerable.

S: The dawn of the information age opened up great opportunities for the beneficial use of data.

5. P: They are moving ahead with specific instruments for loss and damage they suffer due to destructive climate-linked events.

Q: Early studies also suggest that it is on track to achieve the national pledge under the 2015 Paris Agreement for a 33-35% cut in emissions intensity per unit of growth from the same base year by 2030, and thus heed the 2°C warming goal.

R: As the 23rd conference of the UN Framework Convention on Climate Change in Bonn shifts into high gear, developing countries including India are focusing on the imperatives of ensuring adequate financing for mitigation and adaptation.

S: India's progress in reducing the intensity of its greenhouse gas emissions per unit of GDP by 20-25% from 2005 levels by 2020, based on the commitment made in Copenhagen in 2009 has been positive.

6. P: Delhi's air quality deteriorates with unfailing regular-ity, with large swathes of north India in the grip of suffocating smog, but the State government that can make it easier for millions to breathe do not act with any sense of urgency.

Q: The smog that envelops the region is exacerbated by the burning of biomass in Punjab and Haryana and the winter atmosphere is marked by weak ventilation.

R: It is unconscionable for governments, through indifference and inaction, to subject citizens to such toxic air and cause extreme suffering especially among people with respiratory ailments and impaired lung function.

S: It has turned into a public health emergency in the capital, with the air quality index touching extremely hazardous levels in some parts, necessitating the closure of primary schools, has further lowered its standing.

Directions: In each of the following questions, the 1st and the last part of the sentence/ passage are numbered 1 and 6. The rest of the sentence/passage is split into four parts and named P, Q, R and S. These four parts are not given in their proper order. Read the sentence/passage and find out which of the four combinations is correct. Then find the correct answer.

7. 1. Information Technology is a recent development. ✓
P: These changes are attributed to the Internet, website. e-mail and Fax.
Q: ✓ As a result of these techniques, the whole world has shrunk into a global village.
R: The invention of computer has accelerated the speed of computing.
S: It has brought about revolutionary changes in the field of communication.
6. Browsing Internet has become a regular feature.

Read the sentence/passage and find out which of the four combinations is correct. Then find the correct answer.

8. 1. The telephone is the most tyrannical of all the machines we have invented.

P: We might be watching television, reading a book, or doing some gardening.

Q: It uses us more than we use it.

R: But at the first summon, we hasten to answer its call.

S: It rings frantically whenever we are in the middle of doing something else.

6. Are we not like slaves hastening to their whip-cracking masters?

The rest of the sentence/passage is split into four parts and named P, Q, R and S. These four parts are not given in their proper order. Read the sentence/passage and find out which of the four combinations is correct. Then find the correct answer.

12. 1. Siem Reap is a small town near the temple of Angkor Wat.

P: There are some fine examples of Khmer and French architecture.

Q: Now, scientists have discovered that the loudspeakers they make are almost maximally optimized for the purpose at hand: transform any given leaf into the best 'amplifier' it could be.

R: But the tiny tree crickets have taken this a step further : they amplify their mating calls using loudspeakers that they themselves build using leaves.

S: An old trick is to draw attention to oneself by creating a lot of noise.
