- A. remain indifferent
- B. stride forward
- C. even if others
- D. you should
- E. to the humanitarian cause

- 1. CABED
- 2. BACED
- 3. DBCEA
- 4. ECBAD
- 5. CAEDB

C

Q18. Arrange the following parts of a sentence in the correct order and mark the correct option.

- A. field of science
- B. concerned with
- C. robotics is the
- D. and technology
- E. creating robots

- 1. CAEBD
- 2. CADBE
- 3. CADEB
- 4. CBADE
- 5. ACD BE

Q19. The question below contains five scattered segments of a sentence. Indicate the sequence which correctly assembles the segments and completes the sentence.

- A. 16.8% in May 2021, with six sectors reporting
- B. from May 2020 when the country was
- C. in the middle of a national lockdown
- D. positive growth due to the base effects
- E. output from India's eight core industries grew

- 1. EDCAB
- 2. ECBAD
- 3. EADBC
- 4. EADCB
- 5. DBACE

EADBC

Q20. Direction: There are two blanks in the sentence given below. From the pair of words given in the options, choose the one that fits into the blanks most appropriately.

 dedication or loyalty and excessive adoration or appreciation are some of the used by the subordinates to get into the good books of their managers.

- 1. Aggressive, behaviour
- 2. Sincere, quality
- 3. Ostentatious, tactics
- 4. Controversial, deterrence
- 5. Comprehensive, innovation

Q21. Direction: There are two blanks in the sentence given below. From the pair of words given in the options, choose the one that fits into the blanks most appropriately.

Children are _____ and so the parents have to adopt a well-balanced approach towards their _____ on the psychological, emotional and physical aspects.

Read the following sentences. The second and fifth sentences are fixed and are numbered 2 and 5 respectively. The remaining are labeled P, Q, R, S and T. Rearrange these five sentences to form a meaningful paragraph and choose the proper sequence from the given options.

- P. Research demonstrates that the fossil is over one million years old, eclipsing the previous record of hippo in the UK by at least 300,000 years and filling an important gap in the British fossil record.
2. In a new study published in the Journal of Quaternary Science and co-authored with researchers from Royal Holloway, University of London, the tooth is identified as belonging to an extinct species of hippo called Hippopotamus antiquus, which ranged across Europe in warm periods during the Ice Age.
- Q. Excavations at Westbury Cave in Somerset, led by University of Leicester PhD student Neil Adams, uncovered a million-year-old hippo tooth which shows the animal roamed Britain much earlier than previously thought.
- R. Professor Danielle Schreve, co-author of the study, said that Hippos are not only fabulous animals to find but they also reveal evidence about past climates.
5. Scientists know remarkably little about the fauna, flora and environments in Britain between about 1.8 and 0.8 million years ago, a key period when early humans were beginning to occupy Europe.
- S. It was much larger than the modern African hippo, weighing around 3 tonnes, and was even more reliant on aquatic habitats than its living relative.
- T. But new research at Westbury Cave is helping to fill in this gap and it shows that during this interval there were periods warm and wet enough to allow hippos to migrate all the way from the Mediterranean to southern England.
26. Which of the following will be the **first** sentence after rearrangement?
1. T 2. S 3. R 4. Q 5. P

Read the following sentences. The second and fifth sentences are fixed and are numbered 2 and 5 respectively. The remaining are labeled P, Q, R, S and T. Rearrange these five sentences to form a meaningful paragraph and choose the proper sequence from the given options.
