

## Is your dog FAT?

**How many days do we find ourselves simply out of time to exercise our dogs?**

**Experts SAY:**  
**"Exercise"**  
**60 MINUTES**  
(minimum) **Per Day**

Finding and maintaining your **dog's ideal weight** can significantly extend your pet's life.

A [14-year landmark study by Purina](#) found that...

**Dogs fed to ideal body condition lived 1.8 years longer than their overweight litter mates.**

That's a bonus of nearly **2 extra years of life** — just for keeping your dog close to his ideal body weight.

**Your Dog's Life NOW!**

# GOT A FAT DOG?

**WE HAVE THE SOLUTION**

**We will come to your home with a Dog Treadmill to consult & train your family to maximize your dogs life now.**

**1st Consultation: 1hr 15min**

In your home we will do a comprehensive wellness evaluation. Provide a nutritional report on your dog food. **Bring a treadmill** and begin training. We will provide a feeding and training schedule.

**\$85**

## Or Somewhere In the Middle?

I'm not FAT!  
or  
Crazy!

Just wana be  
Healthy!

**WE HAVE THE SOLUTION**

**What if YOU could say  
"Scooter Treadmill"**

**And he JUMPS on the  
treadmill. Then you push 20  
min and START.**

**After a dog is trained to walk  
on a treadmill most of the  
bad behavior disappears.**
