Perfection comes from attention to every detail, passion in every moment and tools with the power to make magic out of thin air. Our own quest for perfection delivers compelling, integrated solutions for every workflow imaginable to keep you performing at the limits of possibility.

For over 30 years, our commitment to innovation has consistently delivered a uniquely different approach to professional storage, high performance memory, computer upgrades and accessories.

Our focus on innovation continues as we strive to always provide the most effective and reliable solutions for every conceivable demand.

**WHAT YOU CREATE IS YOUR MASTERPIECE.
HOW YOU CREATE IT IS OWC.**

DISCONNECTED? RECONNECT TO YOUR WORKFLOW

USB-C Dock

Take your creativity to new heights.

When inspiration hits you don't want anything to slow you down. The OWC USB-C Dock can help bring your ideas to life by connecting everything you need to make great things happen.

- Compatible with PC, Chromebook, or Mac computers that have built in USB Type-C or Thunderbolt 3 port
- Included 80W power supply frees up the original power adapter for mobile use
- 2 Year OWC Limited Warranty
- Available in Silver, Space Gray, Rose Gold, and Gold

COMPLETE COMPACT CONNECTIVITY

USB-C Travel Dock

Connect. Power. Charge.

The USB-C Travel Dock brings portable connectivity to your USB-C equipped notebook, no matter where you are. The OWC USB-C Travel Dock delivers incredible versatility providing five ports of connectivity and power in a surprisingly tiny package. There's no better way to keep your workflow going while on the go.

- USB 3.1 Gen 1 captive cable
- Up to 60W of power pass through capability
- Mac, PC, iPad Pro, Surface, Chromebook, and Android compatible
- With power adapter it can work as a stand alone charging station
- Small enough to fit in your pocket
- Available in four colors

Up to 981MB/s

Drive Dock

Bare drive access made easy.

Featuring a premium aluminum enclosure, two drive bays, and high-performance connectivity, OWC Drive Dock is the ultimate tool for simultaneous access to multiple bare SATA drives. The OWC Drive Dock is available in multiple configurations to suit your workflow needs.

- Hot swap drives with ease
- Supports both 2.5-inch and 3.5-inch drives
- Internal universal auto-switching power supply
- 2 Year OWC Limited Warranty
- Three models to choose from:
 - USB-C (USB 3.1 Gen 2)
 - Thunderbolt 2 + USB 3.1 Gen 1
 - USB 3.1 Gen 1

Quality products, competitive prices and expert support for 30 years.

EXPAND YOUR CAPABILITIES

Mercury Helios FX

Your Mac and Windows PC will never be the same again.

Transform MacBook Pro, MacBook Air, Mac mini, iMac, or any Thunderbolt 3 equipped Windows PC into a high-end graphics processing workstation. The Mercury Helios FX eGPU enclosures come ready to have the GPU of your choice installed. With support built into the latest macOS and Windows 10, adding graphics processing power is as simple as plugging the Mercury Helios FX into your computer's Thunderbolt 3 port. With the addition of Mercury Helios FX 650 to the lineup and its powerful 650W power supply, you can use the highest-performance GPUs and not worry about having enough power.

- Enhance VR, AR, 3D and video workflows
- Elevate gaming performance
- Works with Thunderbolt 3 laptops and desktops
- Notebook charging
- Mercury Helios FX: 550W PSU
- Mercury Helios FX 650: 650W PSU

Thunderbolt 3 Dual Display Adapters

See the Bigger Picture

Enhance your productivity with OWC's Thunderbolt 3 Dual Display Adapters. With two displays, you can accomplish more in the same amount of time. The dual display adapters enable you to connect two UHD displays with added audio support to any Thunderbolt 3 equipped computer. Drive two UHD displays without draining system resources and degrading system performance.

- Integrated Thunderbolt 3 cable
- Easy access, dual DisplayPort or HDMI ports
- Durable, compact and portable
- Supports dual 4K @ 60Hz or single 5K displays @ 60Hz*
- Thunderbolt Certified for Mac and Windows
- 1 Year OWC Limited Warranty

*5K DisplayPort model only

Cables and Adapters

Make the right connection with the right cable.

OWC is your source for high-performance cables to connect, transfer, charge, and sync all your devices with confidence. Don't let substandard cables become the weak link in your workflow.

USB-A to USB-C Adapter

ClingOn

Dropping a cable during file transfers or a work session can be devastating. ClingOn is designed to hedge that risk by reducing – if not completely eliminating – the slight and ongoing cable strain of external devices with USB-C and Thunderbolt 3 connection ports.

Thunderbolt 3

USB-C to USB-C

USB-C to USB-A

NETWORK STORAGE EVOLVED

Jupiter Callisto

Unified storage

Jupiter Callisto is highly scalable, enterprise-class unified storage designed for collaborative workgroups. Callisto offers unmatched flexibility and reliability in environments where zero downtime is the standard. Give your production workflow a no-compromise storage solution with Callisto.

- 8-bay (2U rack) and 16-bay (3U rack) unified NAS/SAN storage
- Advanced ZFS data architecture
- Up to 224TB capacity
- Straightforward web-based management
- 10Gb Ethernet Onboard
- Cross platform/OS agnostic
- Easy future expansion with Jupiter Kore systems

Jupiter Kore

Mini-SAS JBOD storage

Upgrade your workflow with the power and affordability of OWC Jupiter Kore. Up to 16 drive bays, two mini-SAS ports, and redundant power supplies deliver performance and reliability for the most demanding production environments. Use the Mini-SAS ports in tandem for staggering transfers up to 48Gb/s, or increase JBOD storage capacity with additional Jupiter Kore racks.

- 8-bay (2U rack) and 16-bay (3U rack) enterprise-class storage
- Up to 224TB capacity and two Mini-SAS ports
- Hot-swappable drive trays and fan modules for quick installation and removal
- Compatible with all major post-production software
- Redundant hot-swappable power supplies with automatic load balancing
- RAID functionality via PCIe or Thunderbolt RAID controller

YOUR DESKTOP ARCHIVE SOLUTION

Mercury Pro

Now with an updated design, Mercury Pro is the premier drive to bring optical media back to your workflow. With a sleek, durable aluminum chassis, and high-speed USB 3.1 Gen 1 interface, Mercury Pro delivers reliable performance that matches its good looks. It's cooler, quieter, and better than ever.

- Supports M-DISC long term archive format
- M-DISC preserves photos, videos, documents, and files for 1,000 years
- Up to 100GB of data with M-DISC Blu-ray discs
- Rugged, fan-less aluminum chassis
- Blu-ray, DVD, and CD player/burner
- Mac, PC, and Chrome compatible

SOFTWARE TO DO MORE

SoftRAID

Maximum speed, maximum protection

SoftRAID for Mac brings technology found only in data centers to your workstation or editing bay. With five different RAID volume levels, SoftRAID has you covered—whether your emphasis is on the safety of your data, the speed of accessing that data or the best of both.

MacDrive

Cross-platform harmony

MacDrive for Windows makes your PC smarter giving you the ability to access Mac-formatted disks directly from Windows, including HFS+ and APFS drives. Whether it is the Mac boot volume, an external drive, or even a RAID set, MacDrive can handle almost any Mac disk you have.

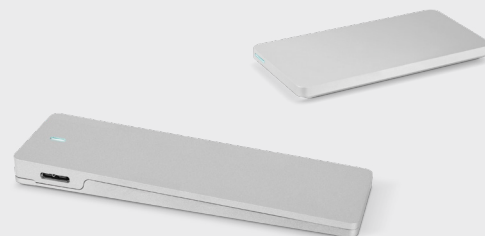

THE AURA FAMILY OF DRIVES

Aura Solid State Drives

Made for Mac without compromise.

The Aura family of drives have always been the the best way to upgrade your Mac, with guaranteed compatibility, fantastic performance, and storage space to spare. Designed specifically for Macs and available as upgrade kits that include everything needed to make the upgrade process a truly seamless DIY endeavor.

- Easy upgrade with free how-to videos
- Full installation kit with all tools included
- Re-purpose the factory SSD as a blazing fast portable drive
- Up to a 5 Year OWC Limited Warranty

OWC Envoy Enclosure

A perfect match for your Mac.

Aura SSD kits come with an OWC Envoy enclosure, so you can repurpose your Mac's factory SSD as a portable USB 3.1 Gen 1 drive.

Mac Pro
2013–Current

Up to 8x the capacity
over original drive

MacBook Pro & MacBook Air
Mid-2013–2015

Up to 16x the capacity
over original drive
