Solutions

- Integrated Invoicing

- Surcharge / Convenience Fees

- Virtual Terminal

- White Glove Customer Service

The AllayPay Solution

Located in Fort Lauderdale, Florida, we saved our client over $12,000 since July 2018!

The owner originally started with a payment facilitator who ended up dropping them for no reason, as so often happens with those companies.

We got them approved within 2 business days, with a high-ticket volume of $50,000, and no reserves. Their effective rate is less than the 2.9% originally quoted by Square. In addition, we properly registered them with the card brands in order to recharge their customers a convenience fee.

As a result, their sales increased 25% and they have zero costs for accepting credit cards, which saves them $12,000/year!
