

EXPERTS IN LIQUIDS PROCESSING FILTRATION AND BOTTLING

Product ref. LA - 18 Date: 31/08/17

Compact, versatile machines for precise application of multiple labels onto round containers such as 'Champagne' bottles which may be tapered or shaped, Also square bottles, ovals, rectangular and other shapes.

Conveyer feed and collection table. 'Rotary' labelling system, adjustable for different product / label sizes, with microprocessor control for centering and level adjustments, batch counter / quantity pre-set, program memory.

Max. label height (standard machine) 170mm, bottle diameters 55 to 120mm. approx. Speed 550 bottles per hour.

Options include second body label station, 'Champagne' neck labelling and foil application, orientation devices, printer for date / lot number.
