

# LIQUID SOLUTIONS

EXPERTS IN LIQUIDS PROCESSING FILTRATION AND BOTTLING

Product ref. FT-10

Date: 01/11/19

## Oil Bath Filter

The oil bath vacuum filter is used to protect the vacuum pump on an FLO2 filling machine. when using products containing sugar: fruit gins, liqueurs, cordials, etc.

It is positioned between vacuum pump and the liquid recovery vessel. The housing body is filled with Vaseline oil, sunflower oil or similar. The oil should be checked periodically and changed before it becomes saturated and dirty.

Note: there is no contact between oil and product

**Price: £85**

Plus delivery and VAT
