Dear Family, Caregivers & Friends of ElderCenter:

As a client, caregiver, volunteer and Outreach Coordinator I'm reaching out to all our ElderCenter Family. We are a nonprofit, community service program that relies on contributions, fundraisers and grants to continue this program for families like yours. I understand first hand how time consuming caring for a loved one can be. Between the stress and unending workload, time and money are tight, especially those of us with loved ones with physical disabilities or those with some form of dementia. We appreciate any help you can contribute. Please donate an extra paper towel roll, donate some baby wipes, or help out at our next fundraiser.

Some of you may not realize that if you are on a financial program here, they do not reimburse ElderCenter the full daily rate. We also keep our rate much lower than the actual cost of day care which is much closer to \$55 a day. So when we ask for volunteers, to contribute by going to Randy's on the 23rd, or buy a Bi-Lo Bag, it is because we need your help. We are doing everything we can to continue to serve your loved ones at a time when all our expenses are increasing. Please share this with your friends, family, church and co-workers to support "Your Home Away From Home."

Thank you all & many blessings, Joni Stone, *ElderCenter Community Ambassador*
