

June 29th Old Sarum

Another sunny day for our group ride out.

We rode up the A30 past the Fovant badges and on to Old Sarum.

Had a look around the aircraft etc.

After a delicious coffee we went through Port Down Research Centre.

They have some interesting looking buildings.

Due to road diversions we were able to pass Harry Corbett's old house, where Sooty Sweep and Sue were looking down on us through the bedroom window!

Great to get out on the bike with like minded people.

Cheers Tony (Pan Euro)
