I thought the website was good and easy to navigate. I enjoyed viewing the coursework Allen completed in this Master's Program. I like the pictures but I would like to see him share more and the format of the website was good. The reason I gave Allen an overall 3 or Good was that I felt his website contained repetitive information. One thing I would do to make this website overall excellent, I would not saturate the website with the same information and I would put more video content to keep the viewer interested.

**Suggestions:** First, thanks for allowing me to view your website and give you feedback. I think you did a good job on this website and I can tell that you took your time and captivate detail information about yourself. The website is easy to navigate and I like the pictures and the professional video. In your "About" section, I like how it tells a story about your journey and what you want to achieve in your career in higher education. I have only a few suggestions that I hope you take into consideration. I would like to see more information about you as an adjunct instructor. It would be a good idea for you to share your course outline, lesson plans, and strategies for student success with the audience. It is imperative for you to share this information when applying for positions in higher education so the interviewer can see that you have the knowledge base. Good job with the overall website and I wish you much success as you pursue your goals in higher education.

**Suggestions:** Excellent job on the website Allen. As you continue to work on your E-Portfolio think about what you consider as being your strengths as a leader and make sure they are recognizable. Also, focus on the aspects of leadership styles you would like to develop in higher education. I liked the professionalism of your website. All the pictures on the website are nice and brought back some fond memories. I especially like the one highlighting the Community Outreach. Good job exhibiting all the activities and committees you are involved with at EAC. Best of luck to you Allen.
