

TiGHT High Quality White LED Strip CV Series

Our white LED strip series consists of high quality constant voltage variants with different color temperatures. At a color rendering rating of 90+ CRI, TiGHT provide you with optimal color consistency and an exeptional luminous flux with greater efficacy. This flexible LED strip is engineered to operate with optimal luminous efficacy.

With our excellent 2835 LED chip we create color reproduction with CRI over 90. and with 3M adhesive tape on the back, you have an versatile LED tape for easy installation.

With our One Bin Only guarantee within 3 MacAdam, we give you constant color temperature and high light quality at a lifetime of 50,000 hours (L80) today and tomorrow! For best possible heat dissipation we use double-layer FPC(2Oz)

High output color changing LED tape is suitable for residential, television, industrial, and commercial applications.

144W 3000K IP20 CRI90
