

THE EXTERNAL STUDY MISSION COMMITTEE PRESENTS

VANCOUVER

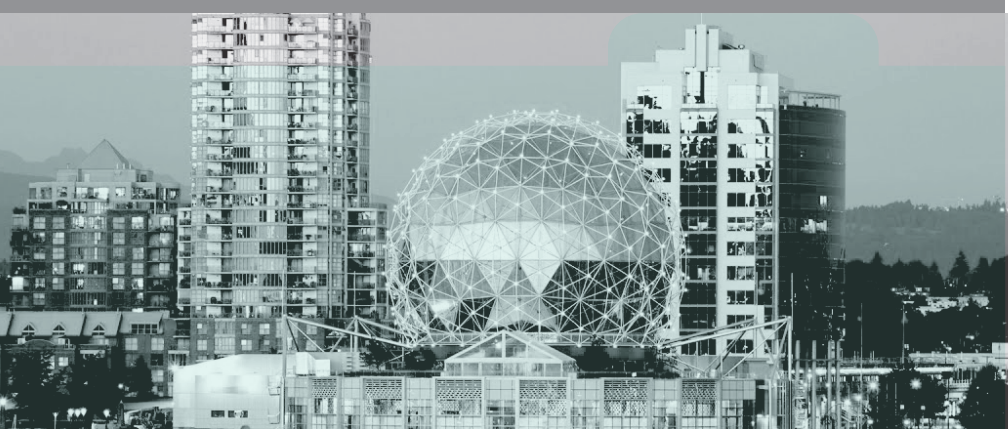

SALTWATER STUDY MISSION

VANCOUVER, CANADA | SEPT 15 - 18, 2019

Canada is the first major economic power to federally legalize cannabis and it has immensely impacted the industry as a whole. Innovations in supply chain, manufacturing techniques, local and federal regulation are setting new precedents for the legalized states in the U.S. to follow. We will be taking 20-25 policy makers and key players within the industry to explore and learn from our Canadian counterparts in an effort to learn, refine, and repeat our efforts to enable this new industry of small business owners in our home state.

SUCCESS THROUGH EDUCATION

MANUFACTURING | RETAIL | TAXES | INVESTMENTS
CULTIVATION | BANKING | TECHNOLOGY
