MEMORANDUM

Date: September 17, 2019

To: Shannon Lienheart

From: Dr. Michael Shanahan, Superintendent Vice President/Human Resource Services

RE: California Public Records Act Request Regarding BrightPath

On August 27, 2019 the District received a California Public Records Act request regarding BrightPath. The requests and District response is provided below.

1. *Background: President Blake responded to Trustee Miyamoto that BrightPath was "subcontracting out the work to another company, they are not actually doing it. And, we can get that information to you."*

Request: Please provide to me all documents related to BrightPath's subcontracting the SRP analysis

District Response: After a diligent search we unable to find any documents in response to this request.

2. *Background: In response to Trustee's Miyamoto's concern about why BrightPath was chosen instead of PARS, President Blake responded "We did some research and it kind of bared out, but we can follow up with you."*

Request: Please provide to me all research performed in making the decision to use BrightPath for the SRP analysis.

District Response: After a diligent search we unable to find any documents in response to this request.
