4. This will initiate the installation and the app will automatically open after installation.
Pin the application to your desktop for easy access on future uses.

HOW TO USE THE APPLICATION

1. The filters work by clicking on a given filter, the application automatically filters the products against all selected filters.

The screenshot displays the OHAUS application interface. On the left, there are two filter sections: 'Refrigeration' and 'Rotor type'. The 'Refrigeration' section has options for 'All', 'Yes', and 'No'. The 'Rotor type' section has options for 'All', 'Angle', 'Angle, Sealable', 'Hematocrit', and 'PCR'. A red banner at the top right says 'Do More with OHAUS' and includes the text 'Select relevant parameters on the left and enjoy frustration free experience with OHAUS Frontier Centrifuges Product Selector Guide!'. Below the filters, a pagination bar shows 'Showing 1 - 11 of 209 Total'. A list of products is shown, with the first item being 'Micro Centrifuge FC5515R (p/n 30130868)'. The product details include: Rotor: Rotor, Angle, 24x1.5/2.0ml (p/n 30130870); Bucket: Bucket n/a; Rack: Rack n/a; Max Capacity: 24 x 1.5/2.0ml; Vol/Tube: 1.5/2.0; Diameter: 11. A 'REQUEST A QUOTE' button is visible below the product details.

2. After clicking the Delete filters button, all filters from the given section will be deleted.

3. To create a pdf file, click the "request a quote" button.

The screenshot displays the OHAUS application interface showing a product detail. On the left, there is a product image of a 'Mini Centrifuge FC5306'.
