the data control company

# Bluemetrix GDPR Readiness Program

Along with our partners Sytorus (International Data Protection Specialists), we are happy to launch the first fully comprehensive solution which will ensure that the data being stored and processed on your Hadoop cluster is happening in a manner that will be compliant with GDPR regulations.

The service is comprehensive because we provide both a technical and data consultancy service. Our technical service ensures storing and recording of data is carried out in the correct manner on Hadoop. Our data consultancy service ensures you understand the implications of the data on your cluster, and will help you deal with it accordingly.

## Engagement Model

The engagement model has two parts to it:

- A 1-day on-site workshop to evaluate the work involved and scope out the project
- A 3~4 week project will be undertaken to deliver all technical and data results to the client

## Pricing Model

Price is available on demand.

## GDPR Readiness Program

Ensuring you are storing and recording the data in the correct manner on Hadoop. Our Data Consultancy service ensures you understand the implications of the data on your cluster and helps you deal with it accordingly

### Technical Solution

- ✓ Discover and find all data being stored on your cluster
- ✓ Create and deploy a Data Catalog to record all the data
- ✓ Auto Tag all the data to identify and categorize it
- ✓ Create and store all the entities for the data on Atlas
- ✓ Create a search platform which will give you a comprehensive overview of the data on your cluster

### Data Consultancy Solution

- ✓ Identify all PII and sensitive data on the cluster
- ✓ Determine the purpose for processing the data
- ✓ Determine the necessity and proportionality of the processing operations in relation to the purposes
- ✓ Determine the measures envisaged to address the risks, including safeguards, security measures and mechanisms to ensure the protection of personal data and to demonstrate compliance with this Regulation

## Why Bluemetrix?

**Experience:** We have been working with Hadoop since 2009 and have experience in all areas of the Stack – Architecture, Infrastructure, Security, Application Development, Deployment, Operations and Data Science

**Guaranteed Delivery:** We guarantee delivery on all Hadoop projects we undertake

**Innovation & Automation:** We are leaders in developing and deploying innovative solutions to deal with problems on the Hadoop Stack, with a focus on developing real-world automation solutions that removes the need for Hadoop expertise.
