How dangerous! We have serious killers / child abductors in my building and death threats are real and a reality, it would not take a rocket scientist to figure out who the wife is of an inmate including their National ID number, and the children's. These visitors are innocent but due to lax police officers their security and lives are now in serious danger.

Columbian, Mexican Drug lords live in here and would love this type of information.

A total of 210 visitors / 87 Children.
