

ANTIMICROBIAL

BabySpray

Spray for instant relief

Soothes the most tender skin

www.healthwest.com.au

BabySpray soothes tender skin conditions bringing immediate relief and may be sprayed liberally on:

- nappy rashes
- minor cuts
- sunburn
- eczema
- heat rash
- Scratches
- wounds

BabySpray dries swiftly and will not stain or leave baby feeling wet. This is important as many bacteria like a warm moist environment to multiply.

There's nothing worse than nursing a distressed crying baby. The whole family is frazzled making life worse for sleep deprived parents.

Parents are desperate for rapid relief without having to worry about side effects or reactions with medications.

BabySpray is non-toxic, will not distress baby and is safe for all the family and contains only pure water and charged silver ions and does not contain any nanoparticles (metal colloids), fillers, stabilisers or chemicals of any sort.

HealthWest BabySpray is extremely effective and easy to use.

Keep a HealthWest BabySpray handy, you never know when you will need it.
