- > **COMPATIBILITY**
 Compatible with industry-standard Milwaukee® and DeWalt® batteries for greater versatility and continuity of operation without the need for adapters
- > **ERGONOMIC DESIGN**
 Handpiece designed to provide a comfortable grip and reduce fatigue during prolonged use, ensuring precision in repair operations
- > **LED SIGNALLING SYSTEM**
 Equipped with a power LED and low battery indicator, which activates a few minutes before the charge runs out to prevent sudden interruptions
- > **STARTER KIT INCLUDED**
 Supplied with a *starter kit* of patented MWM pre-cut staples, designed to maximise the effectiveness of the operation and simplify the removal of residues once the repair is complete
- > **BATTERIES NOT INCLUDED**

RIPLASTIC EXT

Professional unit for plastic component repair through controlled fusion of the base material and filler, using heated compressed air. Also compatible with nitrogen gas (N₂) to improve joint quality and reduce oxidation. Supplied with initial-use plastic kit, scraper, and pressure roller for surface finishing.
