DEDALO WORKSTATION

PDR SMART

Modular multifunctional workstation designed to fully and professionally meet the requirements of rapid bodywork repair, with a particular focus on PDR (Paintless Dent Repair) and Glue Pulling techniques.

A solution designed to support the operator through every stage of the repair process, from minor, localized damage to more extensive deformations, providing all the equipment, consumables and specific accessories required for different types of repair in a single workstation.

Its modular configuration and internal organization ensure that tools are always neatly arranged, easily accessible and ready for use, helping to optimize repair times and providing maximum convenience and practicality during operation.
