

Rattlesnake Footage

This footage has been compiled in order to expose the cruelty that takes place at these roundup events.

While it was being amassed it quickly became apparent many were being pulled from view when they realised we were using it as evidence against them. This is why we've down-loaded the films onto a stick for putting back out there as and when required.

Please feel free to use any of it for joining in the campaign.

Warning! Contains images some might find upsetting.
