Questions (please note – these are not all the questions asked in the interview..)	<ul style="list-style-type: none"> • Being from L.A. would you say that people come from all over the world to be a Film Maker? • When getting started or building a career in film, do you think that many filmmakers struggle in the industry? • So tell us about the Film Arts and Hearts Festival, its primary objective, and walk me through how this idea came to be? • When this idea was conceived, I assume a time came when you shared this with colleagues in the film-making community. What was the general community response (from the filmmakers), and was it well received?
