INTRODUCTION TO DATA SECURITY AND HIPAA RELATED ISSUES

BIJAN ANVAR, DDS

The presentation will discuss and review some potential dangers to data in the office as well as incidence in the United States. Various options of securing data will be reviewed. You will learn ways of preparing the entire team to better help prevent data breaches. The concept of social engineering will also be introduced.

Real life situations will be reviewed. There will be a questions and answer session.

Educational Objectives:

1. To describe spear phishing methods and learning how to be aware of them
2. To identify ways of protecting data in the office
3. To learn how to establish a series of best practices

Dr. Bijan Anvar is a graduate from New York University College of Dentistry. He is past president of the Queens County Dental Society and the Institute for Continuing Dental Education. He is currently a member of the New York State Dental Association's IT Committee and lectures extensively on HIPAA and Data Protection. Dr. Anvar is also an ADA Success Speaker and graduate from the ADA's Institute for Diversity in Leadership program. He has been working with computers since 1983.
