

# Driver Monitoring Services

EMC Insurance Companies partners with Explore Information Services, LLC, to give you discounted access to SuperVision, a motor vehicle record (MVR) and driver monitoring service. SuperVision makes it easy for you to continually monitor your drivers and is customized to your fleet—whether your vehicles include cars, light trucks and vans, commercial trucks or school buses. No other fleet monitoring service provides faster updates or covers more of the country.

## How You Benefit

Obtain low-cost MVRs through a convenient process

Maintain federal and state compliance requirements for CDL operators

Uphold the reputation of your business with safe, reliable drivers

Avoid wasting time, training and money on bad drivers

Save money on insurance—by using a driver and fleet management program, you may be eligible for additional premium reductions

## About SuperVision's Services

### Violation Monitoring and License Status

Only SuperVision provides the data you need when you need it from anywhere in the country:

- Email alerts about any violations, suspensions or revocations on your driver roster
- Alerts when a driver's license is expired, suspended, revoked or canceled, and notification when the status changes
- Regardless of whether a license is suspended for a moving violation or a nonmoving violation like unpaid child support or unpaid parking tickets, SuperVision will alert you
- Updated MVRs ordered with each violation or suspension alert
- SuperVision makes it easy to audit and review all driver violations by geography, time frame and business unit
- Organized and targeted reports identify common violations that indicate fleet trends which can be addressed in training programs

### Automated MVR Ordering

SuperVision lets you pull MVRs anytime from anywhere in the country:

- Schedule MVR pulls in advance
- MVRs provided include all driver violations, endorsements, restrictions and license status alerts
- Pull MVRs to screen new hires and avoid potential risks

*MVRs are automatically ordered after each violation. A separate, standard state fee applies for all MVRs ordered.*

### Instant Access From Anywhere

SuperVision gives you the power to monitor your fleet wherever you are. You can:

- Easily manage user and system preferences
- Create customized monitoring schedules
- Import and manage driver rosters
- Get convenient web-based access from your desktop, laptop or tablet

## Getting Started Is Easy!
