

## *D3 Design Solutions, LLC is now Dynamic 3D Solutions*

St Charles, MO, Release: April 2, 2019. *For Immediate Release*

D3 Design Solutions announces today, after more than 8 years of business, we will begin operating under a new name and will now be known as Dynamic 3D Solutions. We believe it is the appropriate time in our history to rebrand our company as we take the necessary steps to continue to create value in our chosen markets. This rebranding comes at a time when the company is experiencing strong growth and is positioning itself for the future. As we broaden our reach into new markets and expand our organization, we will continue to offer the same quality, affordable services our clients have come to expect. Our commitment to our clients remains our highest priority.

As part of the rebranding, Dynamic 3D Solutions has released a new company logo and will be launching a new company website. Our website address will remain the same, [www.d3ds.net](http://www.d3ds.net). The company ownership and principals have not changed. All phone and email contact information remain the same. In addition, we are in the process of expanding to a new office location and hope to have more to announce on this exciting event soon.

### About Dynamic 3D Solutions

Founded in 2010, Dynamic 3D Solutions is an engineering and design company with expertise in industrial plant design, plant layout, industrial plant piping, intelligent P&ID conversions, as-built drawing services and 3D laser scanning services. Our management team has over 90 years combined experience and more than 26 years of working as an integral team to execute projects in petrochemical, sulfuric acid, chemical and renewable energy.
