

JCCCA 1st Annual Diaper Drive February 14 - April 24, 2019

The Diaper Need

IT'S HARD TO be a A BABY IN POVERTY.

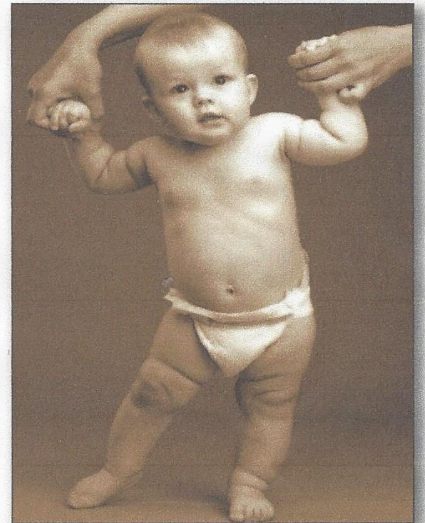

Now imagine it without diapers.

A baby needs six to 10 diapers per day, costing upwards of \$100 a month. When a family lives at or below the poverty level, they might have to choose between paying bills, buying food...or buying diapers (which they can't buy with WIC or food stamps). Without enough diapers for routine changes, dirty diapers get reused, creating rashes and health problems - babies cry more, stress levels go up and parenting gets tougher.

We get diapers for these babies - and change lives!
