Specifications subject to change without notice.

The **FMA Series – Access Panel** is a multipurpose access panel, designed for installation into plasterboard walls and ceilings.

Available in both set bead and flanged edge welded frames, the FMA Series features concealed hinging, a flush fit between door and frame, a range of lock options and a moisture resistant undercoated MDF door that is ready to topcoat in the specified colour.

Product description

Material

- Constructed of electro galvanised steel
- MR MDF and quality hardware

Finish

- All FMA Series access panels have a prime etch finish to the frame
