Specifications subject to change without notice.

The **Premium Acoustic Series Access Panel** is a multipurpose access panel designed for installation into plasterboard walls and ceilings specified with an acoustic rating of RW45.

Available in both set bead and flanged edge welded steel frames the Premium Acoustic Series offers a range of lock options, moisture resistant factory primed MDF doors and excellent sound absorbing features included in the dual door acoustic system.

Product description

Material
- The premium acoustic series access panel is constructed of electro galvanised steel, layers of acoustic and E0 MR MDF.

Finish
- All premium acoustic series access panels have a grey prime etch finish to the frame and factory primed white undercoat to the door.

Door
- The door sits flush to the frame and is constructed of 16mm E0 MR MDF with laminated steel backing plate and compressed foam seal to all four edges of the door.
- An additional internal door is fitted comprising of laminated steel, MDF and loaded vinyl. It is fixed in place via four M8 screws.

Frame
- The frame is constructed of 1.2mm electro galvanised steel and has a low 90mm height for easy lifting within confined spaces. The frames are pre-punched with fixing holes for securing the access panels to the framework.

Hinge
- A concealed cabinet hinge system

Standard sizes (mm)
- 300 | 450 | 530 | 600
- Custom sizes available

Cut-out size
- Add 6mm to panel size
- Flanged edge is +44mm total coverage

Frame depth
- 90mm

Options (front door only)
- Budget square key lock
- Touch latch
- Key lock
- Safety chain for controlled door release
