9:ZERO:7 2017 Complete Bikes

Whiteout AL NX 1x11 MSRP \$1699

A modernized and thoroughly thought-out successor to last year's 10 speed entry level Whiteout AL. Standouts include a SRAM NX 11 speed drivetrain, tubeless ready Sun Ringle rims, and SRAM Level hydraulic disc brakes. Perfect for first time fat tire bikers looking to get on a 9:ZERO:7 without breaking the bank!

Tundra GX1 1x11 MSRP \$2399

Enter our re-designed alloy frame. With shorter chainstays, a shorter headtube and routing for a dropper seatpost, this frame promises to be the most versatile 9:ZERO:7 platform yet. We took a SRAM GX1 groupset, added SRAM hydro brakes, and finished with a tubeless ready wheelset. The Tundra is for having fun year round.

Whiteout Carbon GX1 1x11 MSRP \$2999

The Whiteout Carbon is a legendary frameset, not just in Alaska, but around the world as well. It's been ridden to victory in local races, national level races, and weekend "go fast" rides for years now, so we figured we should make it accessible to those who want to experience just how nice a carbon fat tire bike rides. The same build kit as our Tundra AL.

Available in S, M, L, XL

Frame: Whiteout Carbon 197mm	Fork: Whiteout Carbon 135mm	Front Hub: Sun Ringle 32h 15mm 6-bolt disc
